What Central Saanich Needs Perhaps Is a Foreign Policy

NO. 143—NINETY-THIRD YEAR | VICTORIA, BRITISH COLUMBIA, THURSDAY, MAY 31, 1951 | THIRTY PAGES

U.K. Will Spend $50,000,000 On B.C. Lumber

British Contract Will Require Quarter of B.C. Coast Output

British Columbia's No. 1 industry got a welcome $50,000,000 lumber order yesterday from the British Timber Control.

Word received from London that British Columbia exporters had again been successful in negotiating a new contract for the British market indicated shipments of approximately 50,000,000 feet per month will be needed to fill the contract.

QUARTER OF OUTPUT

News of the 600,000,000-board-foot contract, which came as current United Kingdom contracts were expiring, will require an estimated 25 per cent of British Columbia's coastal output for the ten to 12 months beginning July 1.

Present contracts with Britain expire in June.

Price of the new contract is slightly higher than last year, British Columbia lumbermen said, but still less than the ruling world export market price.

The increase in price was due to higher costs of production and the new methods of parceling required by the United Kingdom.

MORE EXPENSIVE

Mill operators reported the new parceling slightly more expensive.

"Great advantage of this contract is its long term basis," an industry spokesman said yesterday. "Its continuity will allow cutting schedules to be worked out and markets developed for sizes and grades not previously accepted in the United Kingdom."

Daring Rescue Try Fails

A U.S. Coast Guardsman holds the head of a girl above water (arrow) as a Coast Guard helicopter tows them through heavy ocean surf to a beach at San Francisco. The girl, tentatively identified as Nina Rose Agens, 17, of San Francisco, was caught by the tide while swimming yesterday. Resuscitation efforts failed to revive her. The crewman slid down the line from the aircraft to reach the girl. —(A.P. Wirephoto)

Force by Britain Would Start War Says Iran Official

U.K. Oil Company Must Go Declares Board Secretary

By KINGSBURY SMITH

TEHRAN, May 30 (INS). — A high Iranian official warned Britain against possible military intervention in the oil dispute tonight by saying "the first shot fired in the Persian Gulf will mark the beginning of a third world war."

In an exclusive interview with International News Service, the official, Hussein Makki, said emphatically that the British-controled Anglo-Iranian Oil Company "can not continue to operate in this country under any circumstances."

Makki is secretary of the Iranian oil nationalization board created by parliament and also is secretary-general of the Iranian "National Front," the group of political leaders which pushed through the oil nationalization bill early this month.

FORMAL NOTE

The government formally told the British-controled company tonight that it must accept the nationalization law canceling the oil concession despite a 1933 agreement.

In London a Tehran dispatch to The Daily Mail reported that Iranian Finance Minister Varasteh delivered a reminder to Seddon claiming that from midnight tonight all Anglo-Iranian Company workers would be "recognized" as employees of Iran's own Iranian National Oil Company.

The London Daily Telegraph quoted a Tehran radio statement as saying that a three-man delegation was being sent to Khuzistan to run the oil industry.

PROTECTIVE RIGHT

British Foreign Secretary Herbert Morrison, in a statement supported by Conservative Opposition Leader Winston Churchill, yesterday told the House of Commons in London that "we have every right and, indeed, a duty, to protect British lives" in Iran.

Mr. Morrison also said that "appropriate steps" had been taken, when asked if the Labor Goverament could protect British lives and also guard the Anglo-Iranian oil installations against seizure or sabotage.

This was taken to mean a reference to the 4,000 British parachute troops ordered to Cyprus, Mediterranean island base not too far by plane from Iran.

BULLETINS

Saves Life

BOSTON, May 30 (AP).— A Roman Catholic priest talking calmly and soothingly — tonight induced a youth to abandon plans to leap from a ninth-floor ledge of a downtown hotel.

Ordered Out

TEHRAN, May 30 (INS).— The Iranian Government tonight served a 24-hour expulsion notice on two British correspondents whom it accused of filing dispatches considered "unfriendly."

Give Support to Coalition Esquimalt Liberals Urged

Attorney-General Gordon Wismer last night urged Liberals of the Esquimalt riding to travel the Coalition train in the forthcoming by-election.

It would be a bad thing for the Liberal party and for British Columbia to break Coalition at this time, the Attorney-General told the annual meeting of the Esquimalt Provincial Liberal Association at Langford.

His attitude is the same as that of Premier Johnson's in this regard, asserted Mr. Wismer.

SPECIAL APPLICATION

The Attorney-General's words held a special meaning for the Esquimalt riding which has been the scene of bitter friction between Liberals and Conservatives.

Liberals had been served by Finance Minister Herbert Anscomb, leader of the Conservative Party, with notice that the Coalition partnership was to be dissolved at the next election, the attorney-general said.

"We can't sit back as Liberals and not organize when we know it is going to be a straight fight (at the next election)" he stated.

Mr. Wismer said he could not agree with a suggestion by Mr. Anscomb that hospital insurance was a socialist experiment. He said he believed it was part of the free enterprise policy of Liberalism to make provision for the weak and the sick and those who had fallen by the wayside.

GREAT DIFFERENCE

"There is a great fundamental difference between Liberalism and Conservatism," stated Mr. Wismer. "I suppose Coalition is bound to come to an end for that reason."

The Attorney-General declared that the Liberal Party had done more for labor in B.C. than had been done elsewhere, while the C.C.F. had been posing as the friend of labor.

The Government had been convicted by the Canadian Congress of Labor before it had been heard on hospital insurance, stated Mr. Wismer.

Ernest Bevin Will Rest Among Kings

LONDON, May 30 (Reuters)— Ernest Bevin, former foreign secretary, is to be buried among Britain's kings, queens, statesmen and poets in Westminster Abbey.

The rugged trade unionist, son of a poor farm laborer, will be the first socialist statesman to be interred there.

This recognition of the services he rendered the country in 6½ years at the foreign office and as minister of labor during the world war was announced today by Prime Minister Attlee.

Attlee told the House of Commons that the burial will take place without official ceremony, in the presence of the Bevin family and a few friends and colleagues June 8.

He said that Winston Churchill, leader of the Opposition, and Clement Davies, leader of the Liberals, had agreed it was fitting Bevin's ashes should be interred in the Abbey "having regard to his great services to the country in many capacities for a long period of years."

Greater Victoria Given Hope Of Uniform Mail Rate in Area

Greater Victoria residents were given some hope yesterday for establishment of a uniform postal rate in the area.

Major-Gen. G. R. Pearkes, V.C., M.P., made a strong bid in the House of Commons at Ottawa yesterday for a change in the prevailing postal rate system here.

The Ottawa report said he was given "a hopeful sign" from Postmaster-General Edouard Rinfret that there might be favorable action on the plea "or, at the least, earliest consideration."

No actual words were spoken, but the minister indicated by a nod of his head that he had taken note of the Nanaimo member's remarks.

SAME STREET

The three-cent, four-cent differential between houses on the same street in the Greater Victoria area — Quadra for example—has long been a source of annoyance to residents and inconvenience to business firms.

In many cases there is no way of knowing from consulting the address whether three cents postage or four cents is required.

Post office officials here said the three-cent postal rate applied to Victoria proper, Oak Bay, and parts of Esquimalt and Saanich, or wherever mail carrier service was in force.

For addresses on rural delivery routes, four-cent postage is required.

Victoria postmaster J. B. Sinclair said yesterday a map was being prepared at the local post office for distribution among business firms. The map to be distributed "shortly," would show where the three-cent postage area ended and the four-cent began, he said.

OTTAWA PLAN

In the House yesterday, General Pearkes called attention to a report in an Ottawa newspaper that a uniform postage rate was "in prospect" for Greater Ottawa.

The same principle should apply in Greater Victoria, he said.

The Postmaster-General said he had not issued any directive for a uniform postage in Greater Ottawa and did not have the power.

A bill amending the Post Office Act was being considered at the time.

"Only when the bill is sanctioned will I have the power of establishing or altering postal rates," Mr. Rinfret said.

Oak Bay P.T.A. Motion For School Start Lost

A motion to press Oak Bay Council into action regarding the building of the new junior high school was defeated by a slim margin at a meeting of the Oak Bay Parent-Teacher Association last night.

Although the motion was defeated on constitutional grounds, feeling was generally in favor of an immediate start on the new school.

Oak Bay Council has held out for a permanent concrete type structure after educational and Government authorities approved a frame stucco building.

The council has argued that the proposed structure is contrary to a by-law calling for a concrete fire-proof school.

Despite a meeting between the council and members of the school board, the dispute remains at a deadlock.

Oak Bay parents fear that the dispute may end in complete cancelation of the plans for the new junior high school.

Speaking unofficially last night, newly-elected president of the P.-T.A. group, Percy R. Noel said 600 more students were expected soon in the already overcrowded Willows School.

If the new Willows racetrack subdivision is completed and subsequently populated, he said, it would mean probably 400 more children to be "jammed into" Oak Bay schools.

Allies Regain Control Of Hwachon Reservoir

TOKYO, May 31 (Thursday), (AP). Allied troops again won control of Hwachon electric power reservoir in Central Korea Wednesday by seizing the 275-foot-high dam, Eighth Army reported today.

The capture against light resistance put the Allies back where they were when the Communists opened their first spring offensive in late April.

Allied patrols moved freely along the south rim of the 11-mile-long reservoir at points more than five miles north of Parallel 38 in Central Korea.

Seizure of the dam followed Allied occupation of Hwachon town near the west end last Sunday.

Red resistance stiffened west and east of the reservoir.

Communist artillery and die-hard infantry slowed the Allied advance in many sectors of the 125-mile rainswept front.

GUNS BUSY

The phase of Chinese rear-guard actions appeared ended. The enemy used artillery, mortars, captured bazookas and automatic weapons to knock out Allied tanks slithering in the mud north of the 38th Parallel.

Canadian troops reported the heaviest Red artillery fire since the failure of the Communists' second spring offensive in mid-May.

However, one Allied force rammed within 12 miles of Kumhwa, strategic road hub 20 miles north of the Red border on the central front. Another armored column smashed two road blocks to seize an important road junction six miles northeast of Inje on the east-central front. Inje is four miles north of the parallel.

In the west, Allied gains ranged one to three miles against heavy Communist resistance, an Eighth Army communique said.

Advocates Blockade Of China

WASHINGTON, May 30 (AP) — Admiral Forrest Sherman today advocated a United Nations naval and commercial blockade to strangle Communist China's economic life and choke off the flow of war goods shipped by sea to the Red armies.

On this score, the chief of naval operations supported in part the program of Gen. Douglas MacArthur who called for a naval blockade of the Red coast, bombing of Manchuria and the use of Chinese Nationalist troops in Korea.

SURE OF VICTORY

Sherman told Senate committees investigating the ouster of MacArthur that he believes the United States could win a general war against Russia.

He is "very fond of MacArthur" but felt he should have been dismissed because the general had "not been sufficiently responsive to the directives and policy given, and that from a military point of view he should be replaced. . ."

The admiral said the U.S. should not go it alone on a naval blockade because Russia might "oppose it by force." And he disagreed with MacArthur's view that the Russian-held ports of Dairen and Port Arthur should be included in any blockade because it would be an act of war under international law. He proposed it be limited to Red China.

He insisted the U.N. should go ahead with a blockade whether Russia approved or not.

Logger Hurt On Log Pile

CAMPBELL RIVER, May 30— Believed to have been knocked off a pile of logs by a swinging tongs, today, Anntl Cola, 43, suffered a fractured right leg. Cola was admitted to Lourdes Hospital here after being rushed from Salmon River logging camp.

West Prepares Note for Reds

PARIS, May 30 (INS) — The Western Allies announced tonight that they will hand Russia tomorrow a strong note aimed at breaking the deadlock on a proposed Big Four Foreign Ministers' conference to discuss the world crisis.

The United States, Britain and France will ask Russia to agree to a foreign ministers' council session in Washington late in July on the basis of an agenda excluding two specific subjects that Russia has demanded be put on such an agenda.

The subjects which Russia has demanded are the North Atlantic Pact and U.S. bases in Europe.

Royal Visit Precautions

Comb Belfast Buildings For Any I.R.A. Terrorists

BELFAST, May 30 (Reuters). —Police searched buildings today to ensure that no Irish Republican terrorists will lie in wait to endanger the lives of Queen Elizabeth and Princess Margaret when they visit Northern Ireland this week-end.

The King will not come with them because he is suffering from influenza, it was announced. Reports that he had been advised to cancel the trip because of threatened terrorist attacks were described as "pure propaganda."

FULL PROGRAM

If this were true, officals said, the Queen and the Princess would not be coming. As it is, they will carry out the full program already arranged for the Festival of Britain visit.

The terrorist scare followed the throwing of a bomb at the British Embassy in Dublin last week by terrorists protesting the partition of Ireland. A note was left on the Embassy steps saying the King and Queen would visit Northern Ireland "at the peril of their lives."

Belfast police yesterday detained 13 suspected members of the terrorist Irish Republican army, who are agitating for the union of the six northern counties—still part of Britain—with the Republic of Ireland.

They were detained in Belfast prison after a crude bomb had been discovered at a police station. It did not explode.

R.C.A.F. Sets Qualifications

OTTAWA, May 30 (CP)—The R.C.A.F. announced today its qualifications for women's division enlistments. Recruits will start entering the service in limited numbers tomorrow.

Applicants must be between 18 and 29 years old, except for former wartime W.D.'s, who may be accepted up to 40 years of age. Education minimum is Grade X or equivalent. The women must be single although in special cases the air force may consider a married woman with no dependents.

Applicants for commissions must have a university degree or senior matriculation with two years' administrative experience.

Report Loss Of Surveyor

QUESNEL, May 30 (CP)—An unidentified member of a Provincial water rights survey team is reported to have drowned Tuesday 50 miles northwest of here.

The team was working in the Blackwater River country.

No further details were known.

---And Still Champion

Ezzard Charles retained his heavyweight boxing title last night by taking a 15-round decision over Joey Maxim in Chicago. Maxim, light-heavyweight champion, took quite a hammering. In his dressing room after the fight, he muttered "I'm okay," as his handlers prepared to administer oxygen.—(A.P. Wirephoto)

No Picture of Wealth

Africa Diamond Tycoon Yields First Interview

MONTREAL, May 30 (CP)— Dr. John Williamson of Tanganyika, East Africa, may have a large share of the world's diamonds, but you would never know it to talk to him.

The former Montrealer, who has exiled himself in his diamond empire of 3,000 natives, relented today and granted newspaper reporters an interview after he had been pursued for the last 48 hours.

He took the reporters by surprise. Instead of finding the "diamond king" a picture of wealth with a diamond stickpin as big as a fist protruding from his tie, they found him a shy, hesitant man, who seemed embarrassed by the whole thing.

His manner was light as he answered numerous questions about his fabulous mining property, which he said produced £1,750,000 worth of gems last year.

The 42-year-old geologist, a native of Montfort, Que., in the Laurentian mountains, left Montreal in 1934 to prospect for gold. He said this was unprofitable so he turned to diamonds. After prospecting on his own he discovered the Tanganyika property, which jumped him into the millionaire category.

He seemed bored with city life and said that he found Montreal the noisiest city, next to Cairo, that he has ever been in.

"Tanganyika is my home now," he said.

A bachelor, the magnate evaded all questions about his matrimonial future.

"I haven't got time for that kind of thing," was his only comment.

ALL ABOARD

By G. E. Mortimore

There's a potted ivy plant sprouting in The Colonist morgue. I don't like it.

I nurse no passionate hatred of ivy for its own sake. Quite the reverse. Ivy is a savage vegetable which strangles everything it touches—such a human trait that one feels a kinship.

Furthermore, if ivy must grow in a newspaper office, the morgue is a fine place for [illegible] of dead news. Ivy, death and age are sisters. It would be a pretty sight to see the friendly creeper twining around the file cabinets and dipping its tentacles into the inkwells for sustenance. (All right, that's bad botany. Who cares?)

I'm getting off the track, but bear with me. The reason I don't like the ivy plant is this: it's a symbol of that sweet, indefinable thing which people call the "feminine touch."

The feminine touch is seeping into this place like a fog.

We have a new librarian. She's a nice girl, and we all like her. But she insists upon being a woman. If we don't watch her, the place will cease to be an office and become a home.

I use the word "home" with dislike, because it makes me think of all the pretty little chains and padlocks women use to shackle men to the wall.

"Home," is bad enough, but "homemaker" is a word which drives me into a rage. The only person who really deserves the title is a carpenter. He builds a house. What more do you need? (Our librarian tells me she qualifies as a homemaker according to the more precise definition, because she's helping her husband build a house. But never mind that for the moment.)

* * *

Joe Neanderthal made his big mistake when he let Mrs. N. put down a bearskin rug in a corner of the cave. Until then the Neanderthals had lived in a bare, comfortable cave. But from that time on they lived in a home.

Next thing you knew, Mrs. N. was urging Joe to paint some pictures on the wall, and nagging him because he left his dinosaur bones lying all over the place.

It is only a short step from Mrs. N. to the house-proud 20th century wife who keeps the place pretty and feminine and follows her man around with a dust pan in case he drops an ash.

I don't imply, of course, that our new librarian is excessively house-proud. I think she is too intelligent to make a religion of tidiness.

But her ivy is a visible symbol of that feminine influence which can creep silently into a male stronghold and cover it six inches deep in foliage before anybody knows what has happened.

You know how a weed can heave and crack a sidewalk? That's how the feminine influence operates—slowly, deliberately, ruthlessly.

If our girl continues on her course, we may soon have frilly curtains, carpets and illuminated verses by Edgar A. Guest hanging on the wall. There may also be a fireplace with a cat purring beside it. When that happens, I shall check out and book a quiet room in a monastery.

* * *

Those were my sentiments when I wrote the above piece several weeks ago. At that time The Colonist was in its old office on Broad Street. Now we're at Fountain Circle. When we moved, the ivy plant withered and died. I don't know whether it was killed by the glare of these new fluorescent lights, or by the North Victoria smog which has us all coughing and choking and sweeping cinders off our desks.

Anyway, the ivy plant is dead, and now I rather miss it.

The payoff is that we actually do have a cat. It wandered into the city room and curled up on a mailbag after consuming half a pint of milk which a reporter bought for it. Now it seems to spend most of its evenings here.

So you never can tell.

Municipal Workers Ask Service Pension Boost

Province-wide meetings to discuss the inadequacy of municipal service pensions will be held soon.

Delegates from Victoria, Oak Bay, Saanich and Esquimalt civic and municipal employees, and Vancouver representatives Hugh Bird, International Association of Fire Fighters, and Fred Dougherty, Police Mutual Benefit Association, met here Tuesday night to talk over the question.

STATE[illegible]

In a prepared statement, they said: "The service pension has remained on a static basis since 1939. It can be increased with very little or, possibly, no extra cost above the present contribution by the employer.

"Six thousand municipal and hospital employees in the province will unite in their efforts to rectify this state of affairs and intend to petition the Government to continue to implement the original undertakings of 1939."

COMMITTEE

A municipal superannuation committee, Vancouver Island division, was set up at the meeting.

Roy Wootten, business representative for the Vancouver Island Civic Employees, was elected president and Brian Ferguson, secretary of the Victoria City Police Union, was named secretary.

A further meeting of all civic employees will be called here at the city fire hall June 7. Guest speaker will be Howard Forrest, deputy commissioner of superannuation.

WOULD LIMIT JUMPS

OSLO (CP)—The limitation of ski jumps to 180 feet is being advocated by [illegible], founder and first president of the Norwegian Association for the promotion of skiing.

School Anniversary Gets Network Note

TORONTO broadcaster Kate Aitken will include a story of the 75th anniversary of Victoria High School in her program at 9.30 a.m. Friday over CJVI.

Full coverage of the anniversary ceremonies and official opening of the Victoria Gyro Club-sponsored cinder track will be heard over CJVI Saturday from 2 to 4.55 p.m. by announcers Ted Reynolds and Hugh Curtis.

No Action Taken To Probe Tests

Junior Chamber of Commerce failed to take immediate action last night on a suggestion from Dr. E. L. McNiven that a select committee be appointed to investigate ways and means of determining methods of checking a degree of drunkenness.

It was believed, however, that possible appointment of a committee would be discussed at the next meeting.

TWO LEVELS

Dr. McNiven in his address on alcohol and its general effects, stated that in his opinion there are two levels of intoxication, one when a person has a blood alcohol of .15 per cent and is drunk and the other when a person has a smaller amount and is "under the influence."

TO URGE AMENDMENTS

The former police doctor told his audience, which included Police Chief John Blackstock and Commissioner Brent Murdoch, that he would urge amending the Dominion criminal code concerning drunken driving and also the B.C. Motor Vehicle Act to include a blood alcohol test for a driver suspected of intoxication.

Speaking of the "drunkometer," which he asked the committee to investigate, Dr. McNiven said an answer to degree of drunkenness could be had within ten minutes.

The drunkometer is more likely to make a person plead guilty to a charge of drunken driving if he is aware of the results, he continued.

Disadvantages listed included requiring consent of the person to be tested and that a percentage error could be recorded.

The University of Kentucky at Lexington, founded in 1780, is [illegible] west of the Alleghanies.

Speed Limit Favored For Bridge

Lifting of the 10-mile-an-hour speed limit on Point Ellice Bridge for passenger cars only will **not** be advised by Major J. R. Grant, Vancouver consulting engineer.

City Council's Public Works Committee decided Tuesday to seek guidance on the advisability of easing the limit for cars but retaining it for buses and trucks.

Major Grant also said he would not provide a certificate of soundness for the bridge, as requested by the committee, terming it "unnecessary" because the council has all his recommendations on file.

Referring to Ald. Percy Scurrah's suggestion that the proposed new bridge might be shortened by filling in the areas approaching each end, Major Grant said this would be "unsatisfactory" and would effect no saving.

Mrs. Margaret Alice Curtin, New York widow, gleefully waves her winning Irish sweepstake ticket as she calls friend to tell good news. Mrs. Curtin and four other Americans held tickets on Arctic Prince, winner of yesterday's Epsom Derby. Top prize for each is $140,000.—(A.P. Wirephoto).

Seaway Visit Welcomed By Chevrier

TORONTO, May 30 (CP)—Transport Minister Chevrier tonight welcomed the coming visit of members of the United States Congress who will look over the [illegible]rence Seaway.

"I sincerely trust," he said, "that this visit will prove fruitful to our two countries."

Mr. Chevrier addressed the Canadian Exporters Association dinner, given to members and visitors to the Canadian International Trade Fair, and outlined how it is proposed to construct the seaway to bring ocean transport to the Great Lakes and the heart of the continent.

Canada is waiting to implement an agreement made with the United States in 1941 which would bring the project into being, but the agreement has not received congressional approval.

The United States congressional Public Works Committee, which has been holding sessions in Washington for the past four months hearing evidence for and against the seaway, will leave Washington tomorrow and spend six days traveling from the head of the Great Lakes to Montreal.

Mr. Chevrier said the seaway is needed from the points of view of electrical power, navigation and defence. He said:

"The Great Lakes-St. Lawrence seaway lies almost in the centre of the five physiographic regions of the North American continent. The upper end of the seaway links the Canadian West to the Atlantic seaboard and the American West to the port of New York. It joins the wheat fields of Western Canada to the United Kingdom market."

Austrian President

Former socialist mayor of Vienna, Dr. Theodore Koerner (above) has been elected president of Austria after defeating Dr. Heinrich Gleissner, of the People's party, by a four per cent majority. The election was the second try in three weeks at electing a president to succeed late Dr. Karl Renner.—(Central Press Canadian.)

Universities of Canada Plan Tuition Fee Boosts

By The Canadian Press

University education will cost more in Canada next year.

Seven of 11 universities and colleges reporting in a Canadian Press survey said they plan to increase tuition fees for students returning to classes in the autumn.

All 11 have announced increases in tuition at various times since the end of the World War.

Decreased returns on investments and endowments and the higher cost of maintenance and faculty instruction were blamed for the increases.

Inflated costs were temporarily offset by record numbers of veterans attending classes, but this financial boost has disappeared.

At Queen's University at Kingston, Ont., recently-announced tuition increases range from $230 for first-year arts to $365 for medicine.

ALL DIVISIONS UP

Higher tuition fees in all divisions of the University of Toronto were announced May 22. The increases range from $29 to $70.

Students next year at McMaster University in Hamilton will have to pay an additional $26.

Arts courses next year at McGill University in Montreal will cost $300, up $70 from 1945-46 figures.

University of Montreal plans fee increases of $15 to $140 for most courses next term. Two other increases were made since 1945-46.

The University of Saskatchewan has raised its fees twice since 1945, the increase averaging $100. No further increase is planned for next term.

RECENT RISE

The University of Alberta recently increased its fees by 20 per cent.

At Vancouver, the University of British Columbia has a $30 fee [illegible] second increase since 1948. Fees last year averaged $247.

Increasing educational costs disturb educationists. Mr. Justice J. Keiller MacKay of the Ontario Supreme Court said recently that higher fees "would undermine the whole brilliant future of Canada."

Like many other educationists, Mr. Justice MacKay urged federal financial aid to universities.

RICHMOND, Surrey, England (CP).—The Admiralty has presented a motor torpedo boat to the local sea cadets. They will use it as a floating headquarters.

First Irish Vote Results May Be Out Late Today

DUBLIN, May 30 (Reuters).—Ireland held her first general election as a republic today. It was the 14th in the country's independent history — and the quietest.

The 1,800,000 electors chose whether the next government would be another coalition led by John Costello, or a single-party administration headed by Brooklyn-born Eamon De Valera.

It was expected about 1,250,000 electors spread over 40 multiple-seat constituencies would vote in a close race.

Voting for members of the 147-seat Dail Eireann (Irish Parliament) opened quietly at 9 a.m. local time (4 a.m. E.D.T.) and continued to 9 p.m. (4 p.m. E.D.T.).

RESULTS LATER

Under the complex Irish proportional representation system, first results are not expected before late tomorrow, with most figures to be announced Saturday.

Main issue for the public—which has been apathetic during most of the campaign — is whether inter-party or single-party government will best meet the needs of postwar Ireland.

Neither party campaigned on issues dating back to Ireland's stormy past when she fought herself free of British domination.

The election resolved itself largely into a campaign between the personalities of the precise, grey-headed Costello, 60, who leads the inter-party group of Fine Gael Conservatives, Republicans, Labor, Farmers' Party and Independents; and hawk-nosed, lank-haired De Valera, 69, whose piercing eyes and saturnine manner make him one of the most colorful politicians in Europe.

Dulles Asserts Half-War Can Be Halted

TUCSON, Ariz., May 30 (AP)—John Foster Dulles said tonight that Russia's capacity to carry on half-war indefinitely "can be quickly destroyed "by skilfully-applied pressures."

The Republican foreign policy adviser, without going into details about such pressures, called on the free countries to plan "in terms of our strength and our opponent's weaknesses." His address was prepared for delivery at the University of Arizona.

Dulles said that Russia is putting about one-third of her total economic productivity into the strategy of waging what Leon Trotsky called "not war, not peace."

The cost to the Russian people is a cruel one but after centuries of tyranny the Russians are so "calloused" that "the present generation knows only complete regimentation," he said.

Yet Dulles said he was confident "that we shall find the ways to paralyze the slimy, octopus-like tentacles that reach out from Moscow to suck our lifeblood." He said the free nations "must have patience and steadiness of will. . . . Most defeats are inflicted upon those who have first suffered the self defeat of discouragement."

Police Seeking Death Weapon

SANTA ANA, Cal., May 30 (INS)—Sheriff James Musick of Orange County gave his deputies the following order today:

"Find the murder weapon!"

Detectives said they need only the "sharp, weighted instrument" used by the killer of Patricia Jean Hull to complete their chain of evidence in the case.

Officers indicated the location of their search was the Buena Park Motel cabin of accused Henry McCracken, 34-year-old cowboy musician who has been indicted on three counts of murder, kidnapping and child stealing in the murder of the 10-year-old victim.

STOCKHOLM (CP) — About 15,000 air-raid shelters have been built in Sweden. The shelters will accommodate approximately 1,000,000 people, but fewer than 100 are regarded as completely safe against A-bomb attacks.

Sweep Nets Canadians $250,000

By THE CANADIAN PRESS

Canadian sweepstake winners hit a $250,000 tax-free jackpot yesterday on the 172nd running of the Epsom Derby.

In the Irish sweepstake draw, no Canadian held a ticket on the winner, Arctic Prince, a 28-1 outsider. One had a ticket on Sybil's Nephew which came second and two won with Signal Box, the third-place horse. Eight Canadian tickets were drawn on starting horses and were worth $1,120 each.

John Murphy of Montreal netted close to $60,000 on Sybil's Nephew.

Shirley S. Slinn, former Ottawa alderman, and H. Meadows of Montreal each won about $29,000 for tickets on Signal Box.

In the Quebec army, navy and air force veterans draw, Therese Trepanier of Three Rivers, Que., held the winning ticket on Arctic Prince, netting her $34,500. Robert Belanger of Montreal won $20,000 for his second-place ticket and William Anderson of Winnipeg received $13,000 for third place.

Three persons in Ontario and eight in Manitoba are listed to share in a $20,000 pool for also-rans.

All Hope Abandoned For 62 U.K. Miners

EASINGTON, England, May 30 (AP)—Rescue squads gave up all hope tonight of saving 62 British miners entombed by an explosion 900 feet below ground.

They are all dead by now, Lord Hyndley, chairman of the state-run coal industry, announced. But the weary rescue squads kept on working.

The official statement that the 62 must be presumed lost brings the death toll in Tuesday's unexplained blast in the big Easington colliery to 81.

Seventeen bodies have been recovered. One man was brought out alive, but died later, and a rescue worker died yesterday. There were no survivors.

While rescue workers fought their way amid further roof-falls along the shattered tunnel towards the missing bodies, crowds of relatives kept silent vigil at the pithead.

Mounds of rock and coal blocked the way of rescue squads. Hampered by gas masks and heavy equipment, the squads had at least another half-mile to go late today before reaching the bodies.

The job is expected to take perhaps another two days.

Bush Pilot Search Continues; Possible Clue Believed False

EDMONTON, May 30 (CP)—The only possible clue that has turned up in the far north search for a missing Alberta bush pilot is believed false.

Five persons at Fort Rae, 60 miles northwest of Yellowknife, N.W.T., reported sighting a silver plane with red wing tips May 19. They said the aircraft was flying south in rain.

The R.C.A.F. said today there are indications that this was not the plane they seek, but the force is making further investigations.

The missing plane, piloted by John Bourassa of Peace River, Alta., disappeared May 18 on a 200-mile flight from Bathurst Inlet to Salmita Mines. Bathurst Inlet is 800 miles northwest of Edmonton.

Five R.C.A.F. search planes today criss-crossed an area almost 10,000 miles square. Twenty hours of daylight searching now is possible in the northern region. Night search planes are on the lookout for fires and flares.

A constant shuffle of aircraft between Edmonton, Vancouver and Yellowknife is keeping the R.C.A.F. search armada up to strength despite maintenance difficulties.

Most search planes require complete inspection after 100 hours of flying. When they leave the Yellowknife search base for their home fields they are immediately replaced by other planes.

News Oddities

CAMDEN, N.J., May 30 (AP) — The shooting gallery concessionaire at the South Jersey fair had an eye for business today.

Instead of setting up the usual moving ducks, he posted a large map of North Korea with a bull's eye circle around the 38th Parallel line.

"Marksmen" lined up five deep at the counter.

GLASGOW, May 30 (Reuters) — A grand piano was sold for a half crown yesterday at a war surplus supplies auction.

When the auctioneer asked for bidders on the piano, a veteran from service mess halls, one man called jokingly: "Half crown."

Amid roars of laughter, the auctioneer shouted: "Right. Your're on."

And the bidder found himself saddled with the grand piano.

LONDON, May 30 (Reuters)—Into the Sherlock Holmes exhibition at 221B Baker Street yesterday walked a visitor from Japan.

He took one look at a Japanese magazine — opened at an article which — according to a notice in English — told about the Japanese Sherlock Holmes Club.

The Oriental fan of the great fiction-story detective protested to exhibition officials:

"You've got the wrong page. That's an advertisement for toothpaste."

Wringing of Hands Won't Do It

OF two kinds of people in the world—those who wring their hands and say a thing cannot be done, and those who clench their fists and go out to do it—the latter are the more humanly effective and useful. Sometimes they fail, but more often they succeed. In so far as the replacement of Point Ellice Bridge is concerned this city cannot afford to fail. This is no time for isolated members on the council or for anyone else to imagine obstacles. The thing to do with obstacles is to test them hard. Who says the Dominion cannot or will not cooperate with the replacement of a condemned bridge over navigable tidewater? Who, in advance of the actual estimate, says the new bridge would be too costly? It isn't what is said that will count.

The drawings submitted to the city by Major J. R. Grant, consulting bridge engineer at Vancouver, are at least a start. They provide for a four-lane traffic and pedestrian bridge, carrying a brace of water mains below, to stand on the original piers of the structure, and this on a much easier gradient. If, by reason of tides or other factors the length of the bridge on investigation cannot be shortened by fill-ins, then the Grant plan may have to be followed. This is no time for the wringing of hands or to display apathy on a subject that is first on the list of needed public works in the city. The present bridge was condemned years ago. The present load and speed limits were imposed as a temporary measure of safety. How safe, and how long safe, no one rightly can estimate. It is significant that Major Grant does not advise lifting any of these restrictions.

Until the weakened structure has been replaced the shadow of remembered tragedy will hang over this community. What happened before the turn of the century came after many similar "assurances" of safety. The facts unfortunately proved otherwise. Victoria City cannot afford to run that risk twice. The delay now has been overlong and largely unnecessary. Less wringing of hands and a little more concern to provide a remedy is what the public expects of its representatives.

Are the Russians Being Fooled?

HOW the Russian mind works no Western nation has known with certainty for two hundred years and more; the nation that is now the Soviet state always having been the enigma wrapped in mystery that Mr. Churchill described. How the Kremlin views the prolonged MacArthur-Truman affair is therefore anyone's guess.

It has been the legitimate fear of competent observers that the U.S. Senate's cross-examination of American military chiefs has provided a Roman holiday for Russia, as well as a free information service of incalculable value. Newsweek advances another thesis, to wit, that instead of giving Moscow's planners aid and comfort the wide-open MacArthur discussions may have them more thoroughly confused. This is at least an intriguing and hopeful thought.

The idea behind it is that Russians would find it impossible to believe that a general would really oppose his government as openly as MacArthur has done. This could easily be so, for many Canadians, for instance, are baffled by the indiscreet free-for-all that has followed the recall of this noted military figure—and they have a much better knowledge of Americans than Russians will ever have.

On the other hand the Soviet state has had ambassadors in the United States now for a good many years, and it is supposed to be the business of ambassadors and their staffs to learn what makes foreign nations tick. One would imagine these diplomats could assess shrewdly enough the pros and cons of national behaviour and feeling—and in no other country are these so publicly bared as in America—and not be easily misled. Moscow, as Newsweek suggests, may really believe the whole MacArthur affair to be an elaborate hoax, but this seems too good to be true. One wishes indeed that it were.

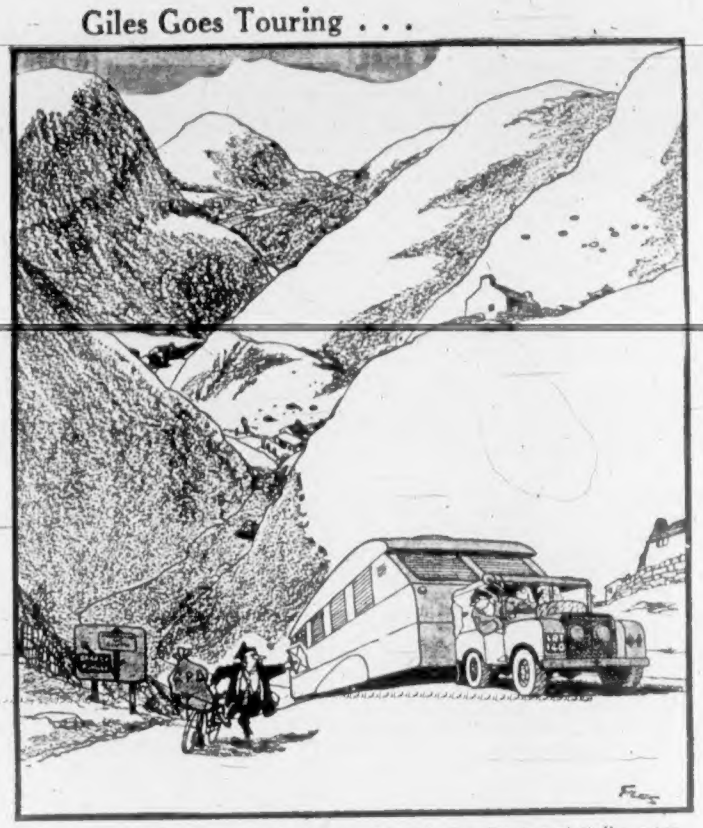

Motorists Should Have Protection Too

A CORONER'S jury investigating a local traffic fatality brought in a recommendation this week with reference to the display of lights on autocycles. Added to a verdict of accidental death, after the jury had heard several witnesses testify that the light on the autocycle involved was very dim, the recommendation was to the effect that autocycles should be equipped with lights of standard efficiency regardless of speed.

The jury is to be commended for directing public attention to this matter. On examination of municipal by-laws, however, it would probably be found that the subject is adequately covered there, and that the need is for stricter enforcement in respect of all bicycles, rather than for changes in the by-laws. This problem of unlighted or insufficiently lighted cycles is one which causes much anxiety to motorists, particularly when rain adds to the hazards of night driving, and there have been complaints of laxity on the part of the police in not requiring full compliance with the traffic by-laws.

Winking at infractions is not a kindness to cyclists but encouragement of a very dangerous practice. It is also unfair to motorists to add thus to the strains of night driving and possibly to put them in the position of having to defend themselves in the courts when accidents occur. The primary purpose of by-laws relating to lights on cycles is the protection of their riders; but car and bus drivers have a right to protection too, and that is an aspect of the matter which the authorities should keep in mind.

Giles Goes Touring . . .

Letters and Excerpts

Letters to the editor on any topic of genuine interest are welcome if they are brief, accurate and fair. No letter will be inserted in whole, or in part, except over the proper signature and address of the writer. Unsolicited correspondence cannot be returned.

HOSPITAL INSURANCE

Sir,—I have noticed with interest statements appearing in the press concerning addresses given by representatives of the Johnson-Anscomb Government on their political tour throughout the province. I find it amazing that no reasons have been given as to why the increased hospital insurance premiums and co-insurance or why other policies such as the five-year driver's licence payable in advance, were put into effect.

From this political tour it must now be clear to all that no coalition exists in the province, but really there has been no genuine coalition in Victoria since the present Johnson-Anscomb Government was formed. This new Government has completely strayed from the original policies laid down by the former Premier John Hart and the late Mr. Maitland. Immediately this new Johnson-Anscomb Government was formed a 3 per cent sales tax was imposed on the people of the province, and that, along with other taxes, makes British Columbia the highest taxed province in the whole Dominion of Canada.

During the last session of the Legislature the present Government forced through amendments to the "Hospital Insurance Act" enormously increasing the rates and adding heavy co-insurance. These advances were put into effect without giving the members of the Legislature a copy of the financial statement of the hospital insurance scheme for their yearly period ended December 31, 1950. The whole hospital service badly needs a complete reorganization and audit as the overhead operating expenses of the scheme amounted to over $1,500,000 for the nine-month period ended March 31, 1950. This is an enormous cost when one realizes that the hospital service does not operate the hospitals but only collects the premiums and pays the money over to the hospitals.

If the Johnson-Anscomb Government had supplied the members of the Legislature with the proper financial report, and if the additional money was genuinely required, then money was available from revenue secured from the Social Assistance tax, commonly known as the 3 per cent sales tax, as only $12,000,000 was originally expected from this tax, and in the last fiscal year this one tax alone collected approximately $27,000,000 . . .

Now that the present Johnson-Anscomb Government is collapsing, a provincial election might be called sooner than formerly anticipated, and when this election comes it is my opinion that the issue will be party politics versus a genuine independent movement where members elected would represent their constituencies and not the party machine.

W. A. C. BENNETT, M.L.A.

Kelowna, B.C.

ART AND CRITICISM

Sir,—I wish to voice my appreciation of the featured article on musical affairs written by Graham Steed and appearing in your Sunday supplement. It is pleasing to see a column devoted to the art and is followed with interest by sincere music lovers.

Mr. Steed has a very difficult role as critic and, of course, must not be surprised to receive criticism in return. For instance, one is puzzled by his strange criticisms of the Musical Festival Movement. In the opinion of the writer, the Musical Festival is a very worthy movement and deserving of the help and encouragement of Mr. Steed, not adverse criticism at this stage. Also there is much fine choral work being done, and has been done, in this city aside from the efforts of Mr. Steed and his immediate associates.

ERIC V. EDWARDS, L.R.S.M., A.R.C.T.

112 Linden Avenue, Victoria, B.C.

ANOTHER VIEW

Sir,—Your defence of the barring of the National Federation of Labor Youth float from the May 24 parade is rather less than convincing.

You say that the parade "should be kept free from propaganda of any kind whatever." What then were the floats and displays by the armed forces and other organizations and commercial firms but advertisements or propaganda for their activities or points of view? Your objection in this case seems to be that that you don't agree with the opinions expressed on the N.F.L.Y. float.

The May 24 parade has always been a community effort and it appears to us that all community groups and viewpoints should have the right to participate.

ARCHIE McGUGAN, JR.

1319 Oakland Avenue, Victoria, B.C.

From "Honey Harvest"

Then in the dark hillside the cherry-trees
Gleam white with loads of blossom where the gleams
Of piled snow lately hung, and richer streams
The honey. Now if chilly April days
Delay the apple-blossoms, and the May's
First week come in with sudden Summer weather,
The apple and the hawthorn bloom together,
And all day long the plundering hordes go round
And every overweighted blossom nods.
But from that gathered essence they compound
Honey more sweet than nectar of the gods . . .

—Martin Armstrong.

Thinking Aloud

". . . of shoes—and ships—and sealing wax—of cabbages and kings."

By TOM TAYLOR

I WONDER what Conan Doyle would make of it all. He was like Frankenstein, outshone by his creation.

Even when he killed him off he had to bring him back to Baker Street again, as large as life and twice as full of cocaine.

There is, of course, but one Sherlock Holmes and he is fated, apparently, never to die. Legend has it that he lives now in the South of England, growing roses or something. If that be so, and who would doubt anything connected with the great Sherlock, one of these days he'll be slipping up incognito to London, to look at his old chambers.

For these have been recreated—perhaps I should say created—as St. Marylebone's contribution to the Festival of Britain. Holmes chose to live and work in this London district and the borough council is, so its mayor said, "sensible of the honor bestowed on it."

(The council had a mighty battle on its hands before deciding to stage the Holmes exhibition, but that is by the way).

* * *

Even among detective yarns there are social degrees. Sherlock is of the elect, Sexton Blake is down among the plebes. As an innocent youth this writer didn't draw the proper distinctions and it was Blake, truth to tell, who charmed him most. In time of course he fell under Sherlock's spell, or was it Dr. Watson's—(Watson, like all Boswells, never gets his due)—and came to be familiar with that long, lean deductive genius. As who is not.

Nevertheless Sexton and his boy Tinker, while not moving in the best literary circles—having to be content with the paper covers of penny dreadfuls instead of the respectable book boards of ritzy publishers—had a place of their own in this scribe's humble heart. Blake never cossetted cocaine, but, what was more, he had a big black bloodhound—Pedro. Pedro is the only bloodhound I know of that lived up to the motto of the Mounties.

However, Conan Doyle would turn in his grave if I didn't turn again quickly to Sherlock, nuisance though he claimed him to be. So . . . back to Baker Street.

* * *

The visitor to No. 221B—albeit there's a deal of dispute about the number—look into it from a darkened platform. It's as cosy as it was when Holmes lay lazily waiting for a client. A fray holds an unfinished slice of buttered toast and a cup of tea. On the door hangs the famous deer-stalker cap and Inverness cape—right beside a shiny tall hat and an overcoat. Dr. Watson isn't visible, but he must be somewhere around for his stethoscope is coiled around the hat.

Holmes, as I said, is in Kent among his flowers, so if you go to the Festival of Britain this year and look in on his exhibition you won't see him. But General Gordon hangs on the wall, there's the Persian slipper where Holmes kept his tobacco, the chemical apparatus, the hunting crop, and all the other impedimenta of the best-known detective in fiction.

A great character without a doubt. Even the Red Army came to know him, for the Sherlock Holmes stories were compulsory reading for five million Russian soldiers. Just why is one of those things—and, of course, as Conan Doyle's son said at the opening of Sherlock's exhibition, not a kopek was paid by way of royalties.

Which may be why Holmes is now growing roses.

Gerald Waring

Reporting From Ottawa

WHEN Defence Minister Claxton informed the Winnipeg Canadian Club recently that "as fast as we can, we are building a network of large permanent (radar) stations with the most modern and powerful equipment," he was not talking idly.

Such a program actually is under way, designed to shield the industrial heart of Canada, in the triangle from Quebec City to Sault Ste. Marie, Ont., to Windsor. There will also be a radar screen on the Pacific Coast.

"Our air defence network," Claxton went on, "is being completely planned, integrated and organized with that of the United States so as to form a single system."

About one-quarter of the combined American-Canadian radar defence chain will be in this country, the minister disclosed.

As the crow flies—or as modern jets fly—it's not much more than 600 miles from Quebec City to the Sault. In the roughly triangular area south of that line are the industries and the people forming the greater part of Canada's war potential.

The protection of this industrial heart requires a fantastically heavy outlay of money for fighter aircraft and the men to fly them, radar and air stations and the people to run them, and speedy, fool-proof communications.

There must be a chain of radar stations running along an arc hundreds of miles away from the potential target area. These stations must stretch from the Maritime Provinces through Northern Quebec and Ontario. Each one, built with much blasting and bulldozing in the wilderness of rock and forest, will cost several million dollars. And because of the limited range of radar, there must be a good many of them.

For Canada to finance such a program alone would mean a very heavy capital outlay which the country could ill afford in view of other necessary defence expenditures. But fortunately for us, radar warning is just as important to the United States because the industrial heart of that country and its centres of population and government as well—lies due south of the Sault - Quebec Windsor triangle which it is vital to protect.

* * *

It is, therefore, a reasonable assumption that the United States is helping finance construction of the radar screen. When I asked Defence Minister Claxton if this were so, he would neither admit nor deny it. However, there is precedent for such co-operation. The greater part of the cost of the Loran stations built in the Northwest Territories was paid by the United States, and the cost of the chain of weather reporting stations in the Arctic Islands is shared by the United States.

The new radar program is a great enlargement of the original concept of a half dozen stations to protect Montreal, Ottawa, and the aluminum plant at Arvida, Que. Many new sites have been selected, and at some construction is already under way. Huge orders for radar and other electronic apparatus have been placed with Canadian companies, and the air force is gearing itself to man each station with from 75 to 250 men and women.

The integration of Canadian and American air defence will cause the international boundary to lose all significance. Men and plans of each country will cross it at will, in the joint effort to intercept enemy bombers before they reach Montreal or New York.

Presumably command details have been worked out—but just what they are hasn't been revealed, and isn't likely to be until an emergency arises. Then the always thorny question of national sovereignty will be ignored in face of the common peril.

Alimony for Men

(From The Windsor Star)

THE Ohio Legislature has passed legislation enabling husbands to sue their wives for alimony. On a strictly judicial basis, there is nothing wrong with this principle. Modern women have sought equality with men in every phase of endeavor and privilege, and cannot complain if they get it even in the way they won't like.

We doubt, however, if there be many occasions of resort to this law. No self-respecting man, able to make a decent living for himself, would bemean himself by asking to be maintained by a woman from whom he has parted. Unless through infirmity or other reasons a man is unable to provide for himself, it would be a poor sort of male who would ask alimony.

Of course, if he is unable to support himself, and the ex-wife has means, there is no reason why she shouldn't contribute. Or, if he has custody of children and unable to maintain them properly, he could accept help.

For women, alimony is something different. Many women never have had to support themselves, and are unable to do so. If they have children to care for, certainly the ex-husband should help provide. However, as an increasing number of women have training and capability of earning money, alimony often isn't as necessary as it once was.

Some women who accept alimony are only gold-diggers, and were when they married. Any man who marries a well-to-do woman, and then asks her to support him after separation, is in the same unworthy category.

Fun, Fact and Fiction

A New York emporium handles 49 separate items calculated to induce sleep—or the gamut from A to Zzzzz.

* * *

Nobody really knows who's running things in Red China, says a portentous commentator, thus affirming suspicions that things are about the same all over.

* * *

An Englishman complains that he visited the Canadian immigration office in London to get some information and was "processed" for emigration before he could ask his question. This recalls the yarn of the man who called to see a busy doctor, and had his appendix removed before he managed to explain that he was selling insurance.

A list of epochal discoveries made by accident includes the vulcanizing process, penicillin, etc. Then, too, there was the first upside-down cake.

The Packsack

Of GREGORY CLARK

WHATEVER else may be wrong with our little world, the high board fences have gone. In the newest residential areas, there are no fences at all, not even little picket fences a peg-legged Scotch terrier could jump. It is hard to convey to the younger generation an idea of what the world was like only as little a while ago as the childhood of people who are now fifty.

Down in the older and slightly derelict sections of our cities, you can still see the six-foot board fences that invariably walled in the back yards a generation ago. It is a gruesome sight to glance out a back window, in one of those residential blocks, and behold the whole interior of the block divided grimly by ugly, weathered fences into private and melancholy cells.

Yet that was the proper and normal thing, 50 years ago. A man who builds a fence today would be considered queer.

There are two ways of looking upon this great change in our domestic behavior. The increasing cost of lumber has without question had something to do with it. In the days of the high board fences, the country was full of cheap pine. Today, it would cost a pretty penny to put up such walls.

But there has been another important factor in the change. In the high board fence days, people had no place to go but home. There were no cars, no movies. A man's yard was his recreation centre. He could make himself a private garden, or he could play croquet or saw wood. People are able to escape their neighbors today with the greatest ease—even by sitting indoors with radio or television. In the high board fence days, probably our fathers had to have at least that much escape.

Iran's Oil

THE extremely awkward and embarrassing situation in which the British Government finds itself over the Anglo-Iranian oil dispute was pithily described in one phrase by the Foreign Secretary, Mr. Morrison, in the House of Commons. He said: "We do not, of course, dispute the right of a government to acquire property in their own country, but we cannot accept that the company's whole position in Persia should be radically altered by unilateral action when the agreement into which the Persian Government freely entered with the company itself provides against such action."

The inherent right of the Persian Government to nationalize the oil wells belonging to the Anglo-Iranian Oil Company is therefore not contested. What is contested, and in this Mr. Morrison will have the backing of the country as a whole, is that the Persians should themselves arbitrarily denounce an agreement into which they freely entered and which, on their own admission, gave them countless benefits.

This may be the first reminder that the cards are not all in Persia's hands. The wells themselves may well be on Persian soil but if left to the Persians to exploit without outside help they would be valueless, which indeed was the case of the Persian sub-soil for centuries until the Europeans came to show what lay beneath it. Other cards in the British Government's hands that the refinery could still be dismantled if the worst came to the worst, and although the Persians may take over the wells by force they could never lay their hands on the large tanker fleet without which the oil is again almost valueless. And how would they market their oil without the vast resources of the British and American oil combines? If they allowed the Russians to "market" it for them they would soon lose the independence to which they profess to be so attached.

A modus vivendi with the Persians must be arrived at. There appears to be no option, in the long term, to giving the Persians equal representation on any board which may succeed the present.

—Public Opinion, London.

Looking Back

Through Colonist Files

25 YEARS AGO—Whirling and whistling its way across the Gulf of Georgia, a waterspout described as fully 1,000 feet high was sighted on Monday by the tug Eva, Prospect Point also reported sighting another awe-inspiring waterspout at 5 p.m. the same day.

50 YEARS AGO—Professor Earlston's balloon ascension and parachute jump at Oak Bay proved a great success yesterday. While the balloon was ascending the professor performed a number of spectacular muscular feats on the rings. At 2,800 feet he let go his parachute and descended with a rush into the waters of the bay, whence he was picked up quite unharmed.

85 YEARS AGO—The two city banks yesterday shipped about $170,000 by the steamer California for San Francisco. The shipment was the largest that has been made for some time, and consisted for the most part of gold that has been accumulating at the Cariboo branches during the last few months.

Original Prints of Sweeping Air View Available

—Photo by Air Surveys Branch, Department of Lands and Forests.

This sweeping panoramic photo of Victoria was printed in a special May 24 souvenir edition of The Daily Colonist which was distributed at various May 24 events. Because of the great interest aroused, The Colonist has decided to reprint it in the regular edition.

Through the courtesy of Lands and Forests Minister E. T. Kenney and the provincial air surveys division, The Colonist has made arrangements for any of its subscribers to obtain original photographs at cost. The photos are on heavy matte paper, but not retouched.

Orders with cash may be left at The Colonist circulation department at either the Douglas Street or Broad Street offices. Orders will be sent on to the air surveys division, which will mail out the photos.

Here is the price list for the various sizes: Nine inches square, 40 cents; 12 inches square, 70 cents; 15 inches square, $1.10; 18 inches square, $2; 20 inches square, $3; 30 inches square, $7. The 3 per cent sales tax must be added to all prices.

Shown in the photo are the homes and businesses of 82,500 residents of Victoria and Oak Bay and the 203 miles of streets that serve them. Not shown are the homes of 32,500 Saanich and Esquimalt residents who help to make up Greater Victoria's population of 115,000. Here too are 17 parks and playgrounds, 43 schools and churches as well as 15 hospitals and nursing homes.

But what continues to attract people to this area is vividly illustrated in this air survey photo—a panorama of sweeping beaches, fine homes and gardens backed by snow-capped mountains.

It shows why enthusiasts proclaim Victoria affords an unparalleled combination of gracious living and industrial opportunity in an ideal climate.

Claiming in a speech at **HALIFAX** that too many people are attacking the problems of child welfare from too many angles, Dr. S. R. Laycock, Dean of Education at the University of Saskatchewan, yesterday advocated establishment of a Canadian Conference on Children and Youth, along the lines of a similar organization in the U.S.

Culbertson On Bridge

Weakish overcalls are far more logical at duplicate than at rubber bridge. This very fact, however, points up the need for skilful play at the contracts which are apt to result—contracts not conspicuously sound! For example: East, dealer. Both sides vulnerable.

NORTH
♠ J 9 4 3
♥ Q 8 6 2
♦ J 5 3 2
♣ 4

WEST
♠ Q 10 7 6
♥ 7
♦ A K 10 8
♣ Q 7 6 5

EAST
♠ A 8 2
♥ A K J 10
♦ 9 7 6 4
♣ K 3

SOUTH
♠ K 5
♥ 9 5 4 3
♦ Q
♣ A J 10 9 8 2

At all ten tables East opened the bidding with one heart. Four Souths passed, and in those cases West became declarer at three no-trump, scoring 600 or 630 points, since no North was psychic enough to lead the singleton club.

Six Souths overcalled the heart bid with two clubs. Three of these, doubled by West, went down 800 points; two, also doubled, went down 1,100 points. The sixth South, who had perhaps been doubled most emphatically of all, held his loss to 500 points and so earned top on the board. Granted, he had plenty of help from the enemy, but some players manage to get more help, deal in and deal out! This was the play:

West laid down the diamond king, and when he shifted to the heart seven, East didn't know that this was a singleton heart. Winning the trick with the heart ten, East decided to return a low spade, on the chance that West had a second heart for another lead through the queen.

South felt very sure that East would not have led a spade from the queen, up to the jack in dummy, and so there was no point in ducking from the closed hand. South put up the king and was naturally pleased to win the trick. As the only reasonable exit play, he then led the jack of trumps.

West, with four trumps, had no reason to rush in with his queen; he properly ducked, and East took the trick. East led back the ace and eight of spades. South ruffed and slyly led the nine of clubs.

This time West's duck was not so proper! In fact, it was ruinous. South cashed the trump ace and threw West in with the queen, carefully keeping dummy's diamonds. Now, when West laid down the spade queen, South cheerfully discarded a heart, and did the same thing on the following play of the diamond ace. Then West had to give dummy a diamond trick.

To Portray Several Decades

Historical Pageant Ready At Victoria High School

A final dress rehearsal for the 75th anniversary pageant to be shown on Friday and Saturday evenings at 8.15 p.m. was held yesterday afternoon at Victoria High School.

"The pageant promises to be one of the outstanding musical [illegible] Victoria for a long time," school officials said.

The historical pageant, which traces major world events during the time the high school has been in existence, opens with a selection of old favorites played by the high school orchestra.

WELCOME

A short address of welcome by principal H. L. Smith will be followed by a commentary by Dick Diespecker, an alumnus of the school, who will describe the first division of the pageant, "Pioneer Days," representing the period of 1876 to 1902.

Second division of the show will emphasize "The New Century" and the period between 1902 to 1939. The last section, "Modern Times," will be portrayed by dances and musical numbers in a modern tempo.

Musical directors for the production are Mr. and Mrs. J. Roberto Wood. The school orchestra is led by Miss Dorothy Hopgood, dance numbers by Miss Sheila Stanley. Accompanist is Malcolm Hamilton.

SCHEDULE

Complete schedule of activities for the two-day celebration follows:—

Friday—Eliminations of British Columbia high school track meet, 2.30 p.m.; pageant, 8.15. Coffee will be served in the cafeteria following the performance of the pageant.

Saturday — Finals of British Columbia high school track meet, 1.30 p.m.; anniversary tea on front lawn, 3 to 5 p.m.; official opening of Gyro cinder track by H. L. Campbell, assistant superintendent of schools, 3.15 p.m.; pageant, 8.15 p.m. Coffee will then be served in the cafeteria.

The school will be open for inspection from 3 to 5 p.m. Saturday.

Name Anderson To Attend Meet

Junior Chamber of Commerce last night appointed Donald E. Anderson as delegate to a special meeting to be called by the Community Welfare Council for discussion on possible establishment of a separate family court in Victoria.

In a letter to the chamber, the Community Council said it was enlisting support of civic organizations in an attempt to have the court.

Release of Cabinet Pay Offer Doubtful Before Next Tuesday

Release of details of wage changes proposed by the provincial cabinet for government employees is not expected before next Tuesday, according to officials of the B.C. Government Employees' Association.

The cabinet's offer was rejected by the association executive Tuesday, following a two-day meeting in Vancouver.

Executive members of the association are now seeking permission from the cabinet to make the offer known to the general membership. Another meeting with the cabinet has also been requested by the association.

Labor Minister John Cates has notified executive members that he will bring both questions before the cabinet at its meeting next Tuesday.

Case Dismissed

Charge of assault against Mrs. Wanda Bialkowski was dismissed by Magistrate H. C. Hall it city police court yesterday.

The charge was laid by Hazel E. Collinson, 521 Michigan Street, on May 19 following a quarrel between the two women over the date the accused was supposed to vacate her apartment.

B. F. Beech, 3900 Carey Road, was fined $40 on a charge of careless driving and had his licence suspended pending a report to the motor vehicle branch.

Dorothy I. Hart, 3336 Oak Street, pleaded not guilty to a charge of failing to remain at the scene of an accident and was remanded for trial to June 6.

A charge of failing to yield the right-of-way to a pedestrian in a cross walk, against motorist Thomas W. Ord, 210 Island Highway, was dismissed.

Joseph Boudreau, charged with assault and causing actual bodily harm, was again remanded to Saturday.

Clifford T. Ashton, 26, 570 West Seventh, Vancouver, charged with forging a postal order for $50, was remanded to June 5, pending the arrival of a handwriting expert from Regina.

Music and Movies At Club Meeting

A musical program will be combined with two films to provide entertainment for the Y.M.C.A.'s supper club which meets tonight at 6 o'clock in the Mural room of the "Y."

Tooth Decay ...help prevent it

Mother! Give your children the benefit of this promising new method of attacking tooth decay.

AMMONIATED LISTERINE TOOTH PASTE ...designed to help prevent decay 3 ways!

In preliminary tests conducted with this famous formula at the University of Illinois Foundation, **case after case of reduction** in the incidence of tooth decay was reported. No wonder it has caused such interest in dental circles!

Now the manufacturers of Listerine Antiseptic make this same formula **readily available to you** and to your family.

Use Listerine Ammoniated Tooth Paste regularly, as directed, morning and night and right after eating. Lambert Pharmacal Co. (Canada) Ltd., Toronto.

1. Chemical action reduces mouth acidity. Mouth acidity encourages decay.
2. Mechanical action cleans surfaces as teeth are brushed—helps break up and remove decay-breeding deposits.
3. Chemical action checks acid-forming bacteria—a major cause of decay.

Officers to Keep Reunion Vow On Seventh D-Day Anniversary

MILITARY ACTIVITIES

By TREVOR COLLINS

Nine officers who vowed during the World War to meet annually on the anniversary of D-Day until such time as only two remained, will gather next Wednesday to mark the occasion.

The officers, all men who [illegible] sault June 6, 1944, with the 1st Battalion Canadian Scottish Regiment, survived the famed landing.

But one of the small group won't be present to answer the roll call. He is Major T. McEwan, Duncan, officer commanding D Company, one of the five officers who were wounded. He is in Shaughnessy Military Hospital in Vancouver.

This year, for the sixth time, mock-serious orders have been issued with detailed rendezvous plans for the nine officers.

The orders are marked "secret" and are signed by Brig. F. N. Cabeldu, who commanded the regiment on D-Day.

They have been distributed to Lieut.-Col. Cyril Wightman, second in command; Major A. H. [illegible] ing A company; Lieut.-Col. R. M. Lendrum, Maple Bay, officer commanding C company; Lieut.-Col. L. S. Henderson, Victoria, officer commanding support company; Lieut.-Col. Earl English, Chemainus, officer commanding headquarters company, and Major E. A. Stewart, Victoria, quartermaster.

The men will be picked up by the launch, Gay Feathers, owned by Brig. Cabeldu, and will go to his residence at Tower Bay for the reunion banquet.

* * *

Canadian Scottish Regiment (Princess Mary's) and 16th Battalion Canadian Scottish Regiment, C.E.F., war memorial, now under construction, will be unveiled September 30 in Pioneer Square, Lieut.-Col. W. J. Mosedale disclosed yesterday.

Major J. Fawcett of the local regiment was chosen chairman of a committee to take care of arrangements for the memorial ceremony, at a meeting earlier this week.

Col. C. W. Peck, V.C., commanding officer of the 16th Battalion during the Great War, and Col. Mosedale were elected honorary chairmen.

More than 100 former members of the two units from across Canada are expected to attend the ceremony, according to Col. Mosedale.

They will be entertained at a special reunion banquet September 29.

* * *

TO SEE CAMP

Col. Mosedale said he would fly to Vernon aboard an R.C.A.F. transport with Brig. D. M. Clark, commander of the 15th Infantry Brigade at Vancouver, on the week-end of June 8 to 10, to inspect summer camp training facilities.

More than 125 members of the local unit are expected to train there July 5 to 13.

* * *

NEW UNIT

A new Reserve Force unit is being added to those already training in the B.C. area, the official army publication, The Western Commander, announced in its last issue.

It is No. 4 Intelligence Training Company, and Major H. N. Tait has been appointed commanding officer.

Major Tait is anxious to get in touch with former Intelligence Corps personnel and would like any former officers or N.C.O.'s to write to him.

His address is:

Major H. N. Tait, Officer Commanding No. 5 Intelligence Training Unit (R.F.), 4050 West 4th Avenue, Vancouver.

LOVE'S LABOR LOOST

LONDON (CP)—A fireman was just reaching out to rescue a Persian cat that had been trapped for several days when it suddenly jumped 30 feet to the ground, landed unhurt, and disappeared.

Cast Tackles Heavy Job In Staging "Silver Cord"

By RON BAIRD

The Victoria Theatre Guild took a large bite on a strong, compelling story of a mother's unnatural possessiveness toward her two sons Tuesday night and left the impression at the end of three acts that some members of the cast had bitten off more than they could chew.

This Sidney Howard play is a tough one under any conditions. With the exception of a most satisfying and able performance by Percia Wilkinson, the cast of "The Silver Cord" foundered in several spots and had to be helped back on the track by the very audible efforts of an offstage prompter.

LACKS WALLOP

May Mulholland, playing a very difficult part as the mother whose almost insane desire to keep her sons tied to her apron strings wrecks the life of one, alienates his fiancee and almost ruins a second son's marriage, failed to produce enough wallop in the role to put it across fully.

Harold Gelling and Gerry Webb, as the two sons, and Peggy O'Grady as fiancee of one of the sons, deserve credit for tackling a tough play and making a pretty good job of it.

Probably the most striking thing about "The Silver Cord" were the set designs by Terry Gower, and lighting effects by Stan Mill and Rod Pearce.

Direction was by Col. Victor Mills.

MELODRAMA

Unfortunately, throughout this final full-length play of the current Guild season, one is too often struck by the fact that this is fine old-time melodrama but hardly a compelling story.

All it lacks is a final scene with the mother showing her daughter-in-law the door, pointing out into a raging snowstorm and adding, "Never darken this doorway . . ."—but you know what I mean.

High Wassail Taboo in Everyman's Castle

By BARNEY McKINLEY

A man's home may be his castle, but he had better not let anyone get drunk within its confines.

According to the strictly worded law in several provinces — including B.C. — the householder is subject to fine or imprisonment if he lets folks hold too high wassail in the castle.

In this province the "owner, tenant or occupant of a house or premises" who allows drunkenness, or gives a drink to a [illegible] to a fine of not less than $50.

Maximum fine is $100, with sentence of not less than 30 days or more than two months. That's for a first offence.

THREE AND IN

For letting the party start up three times the occupant is risking a jail term of not less than three, or more than six, months — no option of a fine.

That's a long time to spend over even a best friend's hangover.

The violation of Section 46 Liquor Control Act, in Victoria — where the moat is considered a little wider than around other men's castles — has brought of fenders into local courts.

Authorities said yesterday a number of cases had been tried in courts here under Section 46. Last case of that nature was [illegible]

SOCIALITE FINED

A woman described as "a person of means and social standing" was convicted on the charge in Toronto this week. Mrs. Norma Coulson Gould, Forest Hill, was fined for permitting drunkenness in her home.

"It was quite a jolly party," a constable said.

The case was a first in Ontario law history with no suggestion of bootlegging involved.

There may be a drunkometer in every doorway before the ramparts stop rocking in everyman's castle.

Mrs. Creery To Officiate

VANCOUVER, May 30 (CP)—Mrs. Wallace B. Creery, wife of the senior Royal Canadian Navy officer for Pacific Coast operations, will officiate Friday at the laying of the keel of the first of the new "baby destroyers" to be built here.

The ceremony will take place at the North Shore yards of Burrard Dry Dock Company.

TOUGH ON COW

KIRKCALDY, Scotland (CP)—A farmer here took by mistake medicine intended for one of his cows and gave the animal medicine he should have taken himself. He recovered but a veterinarian was called to the cow.

Oak Bay Garden Watering

In an effort to cause the least inconvenience to home owners this summer, it has been decided to leave the matter of restrictions in garden watering up to the common sense of our ratepayers.

You are, therefore, **forthwith**, strongly requested to limit your watering to three days of **your own choice** per week, plus Sundays.

As fixed sprinkling systems are heavy users of water all at one time, it is most desirable that they should not be put into operation any day between the hours of 3 p.m. and 9 p.m., including Sundays.

If the above voluntary system is not observed, **compulsory** regulations will again have to be put in force, to the inconvenience of many concerned.

A. S. G. MUSGRAVE,
Municipal Engineer.

Toronto Issues Advance In Quiet Trade Session

By THE CANADIAN PRESS

Prices advanced for the third straight session on the Toronto stock market yesterday. Gains ranged up to an extreme of more than $2.

Trading was extremely quiet and volume was about 1,000,000 shares.

Industrials attracted the most interest. Papers led the way with an almost solid column of plus signs, and steels, utilities, agricultures, constructions, foods, textiles, liquors, and refining oils followed. Retail stores weakened and manufacturing companies and banks were mixed.

Nickel issues headed base metals upward following news of an increase in the price of nickel.

MONTREAL STRONG

Securities advanced strongly for the third consecutive session on the Montreal stock exchange and curb market. Trading was moderately active.

The industrial list advanced steadily from the opening bell, and near the close gains ruled over a wide front and ranged from small fractions to two points or so.

All major groups, with the exception of carriers, which were off, and beverages, which were mixed, participated in the trend. Papers, steels, senior metals and constructions were the most prominent of the advances.

VANCOUVER EASES

Trading tapered off on the Vancouver stock exchange and prices tended to be easier.

Major oil changes were: Calvan up .10 to 6.00; Del Rio up .01 to 1.07, and York was down .02 to .31.

In the metals, Estella was up .05 to 1.85 followed by Pacific Nickel with a gain of .03 to .41 and Van-Roi up .02 to .66.

WINNIPEG DULL

Grain prices moved narrowly in dull trade on the Winnipeg grain exchange, with American interest at a minimum due to the Memorial Day holiday in the United States.

Routine shipper demand appeared in oats and barley in connection with domestic feed requirements. Flax moved up under buying for export accounts. Rye came in for shipper buying in response to reports of overnight export business in this commodity.

Closing Averages

Toronto averages:

Industrials	324.31, up	3.12
Golds	77.04, off	.83
Base metals	173.98, up	1.00
Western oils	102.94, off	.21

Sales 879,000 shares.

Montreal averages:

Industrials	219.70, off	.33
Utilities	85.10, up	.30
Golds	60.72, off	.04
Papers	817.06, up	8.53

Sales 185,300 shares.

Dollar Purchasing Power Erosion Held Demoralizing, Unjust Hazard

WINNIPEG, May 30 (CP) — Next to war, the greatest hazard confronting Canadians is the continuing erosion of the purchasing power of the dollar, H. R. Stephenson, president of the Crown Life Insurance Company of Toronto, said today.

Mr. Stephenson addressed a luncheon of a Winnipeg service club. He is here for the annual three-day meeting of the Canadian Life Insurance Officers' Association which ends tomorrow.

"It is a terrible injustice to all holders of government bonds, mortgages, retirement allowances, preferred stocks, bank deposits, life insurance and all other money contracts, that the dollar today will buy only the same as 55 cents in pre-war days," he said.

"Inflation is demoralizing because it discourages thrift, undermines self-reliance and creates unending conflict between capital and labor.

"The greatest obstacle of all to effective action lies in the unfortunate fact that the path of inflation is the superficially easy and pleasant path. Politically it is the line of least resistance. To apply the brakes means disillusion." Mr. Stephenson said remedies must be applied to the causes and the trouble. It requires the leadership of government at all levels and the co-operation of all companies, labor unions and individual citizens.

Liabilities and assets of life insurance companies are expressed in dollars, the fluctuation in the value of the dollar has no effect on the financial position of an insurance company as such, he said.

Insurance companies, Mr. Stephenson said, are, however, concerned about the effect of inflation on policyholders and beneficiaries.

Canadians Spend $600 Each

WINNIPEG, May 30 (CP)—Raymond Dupuis of Montreal said today that Canadian consumers bought almost $9,000,000,000 worth of retail goods in 1950. The figure represents sales of more than $600 for every person in Canada.

Mr. Dupuis, president of Dupuis Brothers, Limited, was addressing the 58th annual convention of the Canadian Life Insurance Officers' Association. His report dealt with retailing in the Canadian economy.

Retail sales totaled 5.8 per cent more than in 1949 and 159.6 per cent more than in 1941, he said. In January, 1951, sales amounted to more than $675,000,000, compared with $555,000,000 in January, 1950.

The greatest percentage increase in retail sales since 1941 is Alberta with 221.8 per cent. Saskatchewan is next with an increase of 178.2, followed by Manitoba with 176.8. Ontario and Quebec have 146.7 and 143.2, while the Maritimes and British Columbia do not quite reach 140 per cent, Mr. Dupuis said.

Firm Doubles Net Earnings

VANCOUVER, May 30 (CP)—Consolidated net earnings of British Columbia Forest Products Ltd. for the six months ended March 31 were $1,950,012, or 97.5 cents a share, compared with $837,620, or 41.9 cents a share, for the same period last year.

Working capital at March 31 was $9,552,577, up $515,132, and capital additions in the period were $1,388,315. Income taxes were $1,766,514, an increase of $1,175,712.

E. P. Taylor, president, states that the future, particularly in the United States market, is obscure, "due to the uncertainty created by conflicting effects of anti-inflation controls on one hand and defence programs on the other.

"Operations for the second half of the financial year are, however, expected to continue to show favorable results."

Wool Growers Move to Set Reserve Price

By The Canadian Press

A move is afoot among principal wool growers of the Commonwealth to protect themselves against severe price changes.

Details of the proposals, as received by the Wool Bureau, Inc., Toronto, provide for a £66,000,000 minimum reserve price plan designed to limit any sudden major price-drop; and for a seasonal level below which prices could not fall.

John McEwen, Australian minister of commerce, states that the Governments of Australia, the United Kingdom, New Zealand and South Africa have spent 17 months in negotiating the scheme.

The plan, he states, means that in the wool auction rooms there would be an additional buyer with tremendous buying power, prepared to pay the reserve price if it were not forthcoming from trade buyers.

Main control, if the plan is approved, will be vested in a Central Authority, incorporated as a company in London. Australia and the United Kingdom would have three directors each and New Zealand and South Africa two each.

Before each season, the authority would recommend the reserve price and would also frame the broad policy for subsequent selling of any wool acquired at the reserve prices.

Before the proposed scheme can be put into force, a referendum will be held among Australian wool growers.

While Canada is a relatively small wool producer alongside her sister Dominions, and is not a part of their organizations, wool growers here are naturally affected by what they do.

Gold Output Up

OTTAWA, May 30 (CP)—Gold production dropped three per cent in March compared with the corresponding month last year, to 372,327 fine ounces compared with 383,333 the Bureau of Statistics reported today.

Cumulative output for the first three months of the year was higher, however, at 1,093,863 fine ounces compared with 1,087,491 a year before.

London Market Lacks Action

LONDON, May 30 (Reuters)—The Stock Market was colorless today with the volume of business sub-normal and with market men awaiting developments in the Iranian situation. The statement by Britain's Foreign Secretary outlining the United Kingdom's attitude, however, assisted oil shares with Anglo-Iranian up to 5 9-32.

The course of British Government stocks was irregular. The section opened with occasional small declines but later recovered to close with one or two net gains.

Movements in industrials were small. Most shares remained steady at the overnight levels but there were scattered advances in shippings.

The news from Korea brought in sellers of Japanese bonds which declined by ½ to 1 point and there was a lower trend to German issues.

A bright spot was provided by International Nickel which advanced to 76½ on the increase in the price of nickel from £406 to £454 a ton.

Gold and coppers were selectively firmer.

Closing stocks: Babcock & Wilcox 79s 9d; Boots Pure Drug 51s 3d; Central Mining £12 11-32; Consolidated Gold Fields 48s 1d; Courtaulds 48s 9d; Hudson's Bay Co. 110s 9d; Imperial Chemical 42s 3d; Imperial Tobacco 104s 4d; Metal Box 52s; Mexican Eagle 23s; Rand Mines 11⅛.

Higher Profit For Distillers

VANCOUVER, May 30 (CP)—United Distillers of Canada Ltd. and subsidiaries had net profit in 1950 of $290,755, or 67½ cents a share, compared with $66,723, or 15½ cents a share in 1949.

Working capital at year-end was $9,827,027, down $725,934. Income taxes were $199,687, up $184,473.

Company advances to Harrison Hot Springs Hotel now total $1,658,058, and the construction and renovation program of the hotel is expected to cost an additional $250,000 which will be financed by further advances from United Distillers.

Refinery Working At Full Capacity

EDMONTON, May 30 (CP)—Imperial Oil's Edmonton refinery is operating at full capacity of 20,000 barrels of oil daily to meet the high spring demand caused by farming activity.

Refinery manager Herbert Moor said today the greatest problem is getting enough rail tank cars to move oil to north-central Alberta points and part of Saskatchewan.

The refinery now is being expanded to boost its daily capacity to about 30,000 barrels.

SCRAP-HEAP FORTUNES

DURBAN, South Africa (CP) Old junkyards and scrap heaps are being turned over throughout South Africa during the current non-ferrous metal shortage. Some engineering firms are paying up to $90 a ton for good quality brass, lead, zinc and copper.

FEATHERED RESEARCHER

MILDENHALL, Wiltshire, England (CP)—Roman pottery and three skeletons were unearthed on a poultry run here. The discoverer was an industriously-scratching chicken.

Foreign Exchange

MONTREAL, May 30 (CP).—The American dollar today closed at 6 23/32 per cent premium to the Canadian dollar, 1/32 higher than Tuesday's close. That is, it took $1.06 23/32 Canadian to buy $1 American.

The pound sterling was $2.98 13/16, up 1/16.

FOUNDED 1855
Serving Canadians Since 1855
During the past 96 years Canadians in all walks of life have taken advantage of the services offered by the Canada Permanent Mortgage Corporation. Many boys and girls received their first lesson in thrift by depositing a few dollars and adding to them regularly through the years.
The following are a few of the advantages offered by our Savings Department:
1. 2% interest.
2. Cheques may be issued against accounts.
3. Cancelled cheques may be obtained each month.
4. Deposits may be made by mail.
5. Offices open until 4.00 P.M. Saturdays until 12.00 noon.
Small accounts enjoy the same advantages as large accounts.
CANADA PERMANENT MORTGAGE CORPORATION
A. G. STYLES, Victoria Branch Manager

Record 126.224 M.P.H. Established by Wallard

INDIANAPOLIS, May 30 (AP)—Lee Wallard from Altamount, N.Y., a relaxed, grinning streak of gold and black, won the 35th annual 500-mile Memorial Day speedway race today at the ripe age of 40 and set a track record for blazing automobile speed.

Wallard took the lead at the start, surrendered it to four others early in the race, regained it at 210 miles and held it the rest of the way. He drove the last 30 miles without one shock absorber. He shed his exhaust pipe at 127 miles.

He averaged 126.224 miles an hour for the long grind around the famous 2½-mile track.

Wallard's time was 3:57:38.05, the first time the race has been run under four hours. The old speed mark was 124.327 set by Bill Holland in 1949. All six cars that completed the course beat Holland's record time.

25 QUIT

Only one minor accident occurred, but the terrific pace forced 25 of the 33 starters to quit, an all-time record.

Double winner Mauri Rose, also holder of one co-championship, rolled over in his car on the northeast turn when the right rear wheel collapsed. He crawled out unhurt.

Mike Nazaruk of East Meadow, N.Y., finished second, two laps behind Wallard, and Jack McGrath's car, with Manuel Ayulo driving relief, was third.

Bobby Ball, like Nazaruk a first-time starter, finished fourth. Henry Banks, 1950 national racing champion, was fifth.

Records were set all along the way.

TOP FAVORITES

Top favorites were the team of Duke Nalon and Chet Miller, but Miller dropped out at 142 miles, and Nalon, although he won tenth place, had to quit at 380 miles.

A crowd of more than 100,000 saw Wallard win $25,800 in lap money, $20,000 for first place, and enough side prizes to bring the total to more than $50,000.

Loretta Young of Hollywood was waiting to kiss the happy Wallard who wound up the race by driving two extra laps. He finished standing up in his car and waving in jubilation.

Wallard drove the smallest unsupercharged engine on the track—a Belanger special with a piston displacement of 241 cubic inches. It was entered by Murrell Belanger of Crown Point, Ind.

Good Luck Charm

LEE WALLARD

Winner of 500-mile race in record time at Indianapolis yesterday, Wallard grins as he holds dime given him by Ted Horn, killed in 1949 race. Wallard carried dime as good-luck charm.

Suburbanites Score Wins In Boxla Tilts

Oak Bay and Saanich scored exhibition victories in the Bantam division of the Greater Victoria Box Lacrosse Association at Stevenson Park Tuesday. Oak Bay downed Fairfield, 5-2, and Saanich edged Fernwood, 4-3.

Don Gillan scored twice for Oak Bay while Warren Williams, Bill Willis and Bill McColl each scored once. Pete Fryer and Ross Roscamp scored for Fairfield.

Ron Linnes counted a pair for Saanich while Jack Adrian and George Robbins scored singletons, and Fred Mair, Dennis Aitkenson and Bob Caldwell scored for Fernwood.

In the Pee Wee division on Monday, Oak Bay edged Fairfield, 4-3, and Saanich defeated Fernwood, 6-3.

Daily Astrology

By RITA DEL MAR

For THURSDAY, MAY 31, 1951

Today's Quotation:

"There is no such thing as modern art. There is art—and there is advertising."—Albert Sterner.

Thursday for Everyone: Deal diplomatically with those who cross your path. Defer taking on added responsibilities. You will miss nothing of lasting value if you retire early and get some added rest.

Look for your birthdate and birthsign below:

March 21 to April 19 (Aries).—Rely on perseverance and calm confidence to see you through chores and transactions.

April 20 to May 20 (Taurus).—Neither dispense nor request favors. Don't shoulder more than necessary commitments.

May 21 to June 20 (Gemini).—Sit back and let affairs take their natural drift if you run into obstacles. Be congenial.

June 21 to July 22 (Cancer).—Promote regular activity, observing all the rules of the game so as to allay doubts of others.

July 23 to August 22 (Leo).—Make no new moves of importance but revamp arrangements when necessary to meet existing conditions.

August 23 to September 22 (Virgo).—Stand prepared for a new twist of events that will require your best thought and resourcefulness. Don't be wasteful.

September 23 to October 22 (Libra).—Demonstrate your ability to take showdowns or impediments; they are to your ultimate advantage.

October 23 to November 21 (Scorpio).—Meet restrictions squarely. Institute corrective measures; be industrious.

November 22 to December 21 (Sagittarius).—Utilize patience, perseverence; try to organize for lasting results. Shun risks.

December 22 to January 19 (Capricorn).—Shape policies in accord with demands of basic requirements. Be industrious.

January 20 to February 18 (Aquarius).—Dispel tension. Exert finess and skill to avoid reaching a deadlock with some key figure.

February 19 to March 20 (Pisces).—Try not to bring financial issues to a climax. Do necessary overhauling of present assets.

Planning ahead: Good for sociability, entertaining, etc.: June 1, 2, 3, 4, 5, 6, 7, 8, 9, 11.

Golf--- Here's How

By SAM SNEAD

Golf's Greatest Player-Teacher

Here's a golfer whose downswing is under way. He starts the downswing by smoothly reversing his backswing with that all-parts-together action and as he does so his raised left heel

starts toward the ground and his flexed left leg begins to straighten smoothly out. As the player's weight flows from right leg to left, just before impact the left leg will be fully straightened, the left foot flat on the ground and his left side will be one perpendicular line. This firm straight left side provides the leverage against which he swings. The arrow again reminds you to pull the hands straight down. This is a nice action golf picture. Fix it in your mind. This swing will be rhythmic throughout. There will be no lunging applied at any point. Rhythm does it.

(Copyright, 1951, John F. Dille Co.)

MR. PILE SUFFERER

What a vast difference there is in the modern way to treat Piles. The necessity of removing the real cause is only plain common sense. The new PYLTONE treatment (a liquid taken by mouth) goes direct to the inside cause. Special gums, plant extracts that help nature rebuild those delicate tissues. PYLTONE Pile Treatment is science's answer. It gets you satisfactory results with a one bottle trial or price refunded at once. At all modern druggists. ***

City Dog Club To Judge 200 At Two Events

An entry of 200 dogs from the B.C. Mainland, Washington, Oregon and California has been received for two shows to be held by the Victoria City Kennel Club this week at the Crystal Garden. Fifty breeds, ranging from the diminutive Pomeranian to the lordly St. Bernard, will be represented.

Robert Cross of Victoria will be the judge for the first show tomorrow and Joseph Dodds of Vancouver will officiate at Saturday's show. Judging will begin at 10.30 a.m. each day.

The shows are held under Canadian Kennel Club rules, and championship points and certificates will be awarded according to scale. A good array of prizes is offered for competition, including the best of each of six groups, best dog in show and reserve best.

The Victoria Obedience and Trials Club will put on trials at 5 p.m. each day.

As a souvenir of the Helsinki Olympic Games in 1952, Finland has issued a special silver coin weighing 12 grams.

Inquire now for convenient GREYHOUND service and low fares to all points.

Arctic Prince Runs Away With Derby at 28 to 1

EPSOM, Surrey, England, May 30 (AP)—Arctic Prince, an Irish-owned and bred colt, turned the Derby into a runaway today, winning by six lengths at odds of 28 to 1.

The fast-stepping pride of grey-haired Joe McGrath, blazed up the stretch to victory over 32 other three-year-olds in the 172nd and richest running of the classic before a throng of more than 500,000 at ancient Epsom Downs.

McGrath, one of Ireland's leading racehorse owners, is managing director of the Irish Hospitals Trust, organizers of the Irish sweepstakes, one of which was based on today's race.

One of the many longshots, Arctic Prince scored by the greatest margin in 20 years. The brown son of Prince Chevalier - Arctic Sun shook loose from his rivals at Tattenham Corner, a sharp bend a half-mile from home. Jockey Charlie Spares never let up until the winner was under the wire.

PHOTO

It required a photo to separate the next three horses with Sybil's Nephew getting second a head over Signal Box.

Le Tyrol, owned by Ralph Strassburger, an American now residing in France, was fourth.

The 9 to 1 pre-race favorite, Ki Ming, never had a chance after the first mile of the 1½-mile event and finished far back. If Ki Ming had won, his owner, Billy Keyon, would have collected $61,000 on a $61 bet made 17 months ago.

The crowd included Queen Elizabeth, Queen Mother Mary, Princess Elizabeth and Princess Margaret. An attack of flu kept the King away.

Arctic Prince's easy victory in the slow time of 2.39 2/5 was worth $54,561 to his owner.

Following the first four in order were Crocodile, Le Vent, Nyangal, Sun Compass, Turco II, Expeditious, Medway, Stokes, Zucchero and Malka's Boy. Arcot was last.

Other starters were Ardent Hope, Bokara, Clare Hill—also owned by McGrath—Claudius, Faux Pas, Nourreddin, Paradise Street, Part Du Lyon, Sashcord, Straight Quill, Turks Reliance, Wateringbury, and Woodcote Inn.

Barna Remedy was a late scratch.

PACIFIC STRONGHOLD

The island of Guam, American stronghold in the Pacific, is 30 miles long and between four and eight miles wide.

O.C. Cricket

LONDON, May 30 (Reuters)—English first-class cricket results today:

South Africans 313 for nine, Essex to bat.
Oxford University 365 for six, Nottinghamshire to bat.
Middlesex 335 for eight, Warwickshire to bat.
Surrey 416 for seven, Hampshire to bat.
Northamptonshire 367 for seven, Somerset to bat.
Leicestershire all out 303, Worcestershire 184 for three.
Gloucestershire all out 237, Yorkshire 41 for one.

Remember When . .

Henry Armstrong, Los Angeles negro boxer, won his third world title by defeating Barney Ross for the welterweight title at New York 13 years ago tonight. Armstrong had been featherweight champion and lightweight champion.

Close Fighting in Seventh Round

Ezzard Charles (right) and Joey Maxim work at close range in seventh round of their heavyweight title fight at Chicago last night. Charles retained title with unanimous decision over light-heavyweight champion.—(A.P. Wirephoto)

Heavyweight Champ Ezzard Charles Gives Maxim Painful Boxing Lesson

CHICAGO, May 30 (AP) — Heavyweight champion Ezzard Charles handed a stinging boxing lesson to inept light heavyweight champion Joe Maxim for a unanimous 15-round decision in their title bout at the Chicago Stadium tonight.

Charles, vicious and persistent, made his eighth title defence a sharp belting, all the way, of a wary and cautious-punching Maxim, who was bleeding and puffing at the finish.

There was no question that Maxim was outclassed in his attempt to dethrone the Cincinnati Negro who had beaten him three times previously before either was a champion.

Referee Frank Gilmer voted for Charles 78 to 72 and the judges, Tommy Thomas and Ed Hintz saw it 85 to 65 each.

The bout, watched by millions of television viewers but fewer than 10,000 Stadium patrons, followed the same pattern almost from start tto finish.

GETS OXYGEN

Charles carried the fight to Maxim both at close range and in long-distance exchanges. A half-hour after the fight, the battered Maxim was being administered oxygen and was mumbling incoherently to his handlers.

There were no knockdowns.

The Associated Press scorecard had Maxim winning only one round, the ninth, in which he machine-gunned three powerful lefts which almost stunned Charles. The AP card rated the fourth and tenth rounds even, with the rest going to Charles.

Charles never had to worry about Maxim's vaunted left or his newly-acquired right-hand sock which flattened England's Freddie Mills for the light-heavyweight crown in London early this year.

WEAK DEFENCE

The sparse crowd was pulling for Maxim, but had little occasion to cheer. The Cleveland Italian seemed to have little or no defence against Charles' crisp in-fighting.

From the tenth round on, Maxim was laboring to stay in the fight. He was bleeding from a cut over his right eye and was clutching and clinching at every opportunity.

The official attendance was announced at 7,226, paying a gross of $77,314. This was far below expectations of more than $100,000, but the television fee was a helping $100,000. Charles got 40 per cent of the gate-television receipts and 20 per cent went to Maxim.

IT BEATS ME

By Jim Tang

Arena-manager **Joe Dukowski** is determined to have a **Sportsman's Show** here next year. He took in the one at **Vancouver** after an earlier visit to **Seattle**, found both interesting and is looking for a sponsor. A good show would undoubtedly attract plenty of customers. . . . The bowling season has been over for weeks but a teammate informs that **Roy Begg** must have set some kind of a mark for consistency this past season. According to the informant, Begg missed 500 only three times out of 58. . . . Also tardy news is the fact that the **A's** have given outfielder **Lou Novikoff** his unconditional release. . . . **Dick Barrett**, irate at **Bob Brown** for not going through with the deal which would have seen shortstop **Ray Tran** wearing **Victoria** flannels this season, is sticking with his threat not to pitch in **Vancouver**. . . . Radio-station **CJVI** will broadcast the finals of the **B.C. Inter-High School Track and Field Meet** at **Victoria High School** Saturday. The broadcast will start at 2.05 and end at 4.55 with **Ted Reynolds** doing the description. . . . One of the most improved players in the **Inter-City Lacrosse League** this season is **Red McMillan**, the ever-hustling defenceman of the **Shamrocks**. Also vastly improved is **Tommy Druce**, rapidly developing into a dangerous offensive threat. McMillan, too, is getting his goals and setting some sort of a record for not wasting his shots with five goals in seven attempts. . . .

Still Interested

Still following the doings of **Victoria Athletics** are ex-managers **Ted Norbert** and **Marty Krug**. Last week's mail brought letters from both showing interest. "Tell Reg (Patterson) to keep his chin up" Norbert wrote. The trouble is, Ted, that maybe he should tuck it in. Too many potshots are bouncing off. . . . **Jack Harshman** is now playing first base for **Nashville**, where he apparently is finding what is one of the smallest parks in baseball much to his liking. In a recent twin bill, the former Victoria first-baseman drove in nine runs with three home runs, two doubles and a pair of singles. . . . **Mine Hafenecker**, who once played in the infield for the **A's** without too much success, was working on a 22-game hitting streak with **Tampa** according to the latest issue of **The Sporting News**. . . . Milwaukee's **Jeanette Kneprath** must be doing a good job as president of the **Women's International Bowling Congress**. She has held the office for 28 years. At that, she is not too far ahead of Secretary **Emma Phaler**, who has served for 24 years. Both must be near the top in the field of diplomacy. . . . **Doug Hepburn**, Vancouver weightlifter who holds one official world record and claims several unofficial marks, is reported to be training for a wrestling career and may eventually appear here when the heavyweights start their weekly shows. Although four inches under six feet, Hepburn has a chest measurement of over 52 inches, weighs 235 or more. . .

Coaching Change Rumored

Picked up twice last night was a rumor that there may be a second coaching change for **Nanaimo Native Sons**, who lost **Lloyd Steele** when his firm transferred him to **Vancouver**. If **Ed Gilmore** doesn't stick, look for **Ted Menzies** to take over. . . . The **A's** made only 35 double plays in their first 40 games, hit into 50. . . . Baseball attendance has taken a general slump. The **Yankees** are the only major-league club to show a gain in the first month while the situation at Beaumont is typical in the minors. There, the **Roughnecks** drew only 19,659 for their first 18 home games—17 playing dates—and played to less than 1,000 fans 11 times. . . . **Victorian Clint Hodges** is managing the **Moose Jaw** team in the new **Western Canada Baseball League**. . . . **Hal Jackson** could set a new **W.I.L.** fielding mark this season. The lithe Victoria first-baseman has made only one error in 40 games and that one came in the third game. Since then, he has handled over 350 chances without miscue and has a fielding average of .998. . . . **Don Pries** has only made three boots since being shifted to second base and had a string of 20 errorless games while **Lilio Marcucci** has erred only once as a catcher. . . . **Vic Dale** is reported in training for some floor-walking. Congratulations. . . .

* * *

GUESSING DEPARTMENT: **Commandos** over Combines in tonight's boxla, the **A's** to square the series with Tacoma and **Pitzer & Nex** in tonight's softball. Batting average to date: At bat 212, hits 149, percentage .703.

Little Mercy Shown As Rocks Trample Native Sons, 18-4

Nanaimo	2	6	73	111	4

Next game: Tonight, New Westminster at Vancouver.

Victoria's reshuffled Shamrocks grabbed sole possession of first place in the Inter-City Lacrosse League at Memorial Arena last night as they rode roughshod over Nanaimo Native Sons, 18-4, before over 4,000 fans.

The win broke a first-place deadlock with Vancouver Combines, who get a chance to draw even tonight when they host New Westminster Commandos.

FULLA WORKS HARD

Last night's score was a good indication of the play. The Shamrocks outran and outplayed the Up-Islanders throughout and were never in any trouble. They continually broke men in the clear, giving Goalie Fred Fulla, who worked hard and well in a lost cause, no chance.

Victoria grabbed most of the face-offs and loose balls, profited by considerable loose passing by Native Sons. Shamrocks checked sturdily and took advantage of lax defensive play by their opponents, long passes consistently connecting with receivers with the losers badly out of position.

Although Sons were weak opposition last night, the Shamrocks looked at their best offensively and most of their scoring thrusts came on neatly-executed plays. They missed many setups, hit the piping no less than four times and were balked a dozen times by Fulla when right on the doorstep. It could have been worse.

BOOST AVERAGE

Archie Browning, Whitey Severson and Norm Baker grabbed the chance of moving right up in the league scoring race. Browning scored three times on as many shots and set up another goal for four points, tying him with Combines' Jim Anderson for the lead. Each has 26 points. Baker increased his point total to 25 with three goals and two assists, while Severson scored once and passed for four goals and now has 23 points. His 13 assists are high for the league.

Although not overworked, Victoria goalie Bill Andrews boosted his league-leading percentage by blocking 22 of 26 shots. Six of his ten stops in the first period were good and his work in the initial 15 minutes played its part in the top-heavy result.

TAKE EARLY LEAD

Shamrocks rolled to a 5-0 lead in the first quarter, were ahead, 6-1, before "Soup" Calverly broke the ice for Nanaimo after 18½ minutes. It was 10-1 when hulking Bill Seward took advantage of a penalty to Darrel Popham to score twice with bullet drives.

His first counter came only 13 seconds before half-time and went right through the hemp. His second, just after the third quarter started, was a blazing 60-footer which gave Andrews no chance. From there, every time Seward got the ball the crowd chanted "shoot, shoot."

Nanaimo's last goal, also scored while the Rocks were shorthanded, came three minutes into the third quarter. Andrews blanked the visitors for the last 27 minutes while his mates crashed in eight goals, four of them in a minute and 46 seconds midway through the final quarter.

Arnie Ferguson, cautious Shamrock coach, said only: "We were a bit better" after the game. He refused to state he was entirely pleased with the line-up changes, said he "might" make some more.

U.S. Net Teams Cancel Out In French Play

PARIS, May 30 (INS)—One top American doubles team won and another lost today in quarter-final play in the doubles of the French tennis championships.

Gardner Mulloy and Dick Savitt defeated Bernard Destremau and Marcel Bernard of France, 6-3, 4-6, 6-4, 6-2.

But Hal Burrows and Straight Clark lost to Jaroslav Drobny of Egypt and Eric Sturgess of South Africa, 6-4, 6-0, 6-0.

In the women's doubles quarter-finals, Doris Hart and Shirley Fry eliminated Jacqueline and Andree Varin, French tandem, 6-1, 6-3, in a feature encounter.

Dorothy Se[illegible]ld, another American entrant, and Beryl Bartlett of South Africa, defeated the British team of Mrs. Joy Mottram and Kay Tuckey, 4-6, 6-4, 6-3.

Nelly Adamson of France, and Thelma Long of Australia, won from Mrs. G. Walter and Mrs. G. Woodgate of Britain, 6-2, 6-0.

Louis Confident Will Beat Savold

POMPTON LAKES, N.J., May 30 (AP)—Joe Louis said today he plans to knock out Lee Savold with body punches when they meet at the New York Polo Grounds June 13.

Then to show that he meant it, Louis concentrated on body punching against three sparring mates in a six-round workout. He didn't throw a punch to the head during the drill.

Shamrocks Sideliners Club are sponsoring their second lacrosse excursion of the season to Nanaimo Saturday night, when the Shamrocks meet Native Sons in an Inter-City Lacrosse League fixture.

Fans wishing information on the trip are requested to phone either Neil Pollock or Norm Baker at B 3413. Departure time at the E & N. depot will be 5.30 p.m., the return trip starting as soon as possible after the game is over, approximately 11:30 p.m.

Leading Athletes Gather For High School Meet

Athletes from all parts of the province will begin arriving in Victoria today for the B.C. Inter-High School Track and Field championships, which will begin tomorrow at the Victoria High School cinder track with preliminary heats. The meet is being held in conjunction with the 75th anniversary celebrations of the school.

First visiting team to arrive will be the five-man Creston squad, which will come by the Seattle boat at noon. The team will be accompanied by coach Fred Martello, who was runner-up to Percy Williams during his hey-day at Vancouver high school meets. The Creston team will be followed by the Penticton squad, arriving by the afternoon Vancouver boat.

Visiting students will be billeted at homes of students from Victoria, Oak Bay, Esquimalt, Mount View and Mount Douglas High Schools.

27 SCHOOLS

Total number of schools to be represented at the meet reached 27 yesterday with the receipt of entries from Parksville and Saltspring. Parksville filed entries in the 100 and 220-yard sprints, while the Gulf Island school will be represented by two girls in the 60 and 100-yard dashes and single entries in the boys' century dash and high jump.

Although expecting a capacity crowd, officials in charge of the meet stated last night that there will be adequate parking facilities with the soccer pitch off Gladstone Avenue being thrown open for car parking.

The host Victoria school hopes to score the first victory in the new three-mile race, which will cover 12 laps of the Gyro track. Carrying the school colors will be Hedley Sampson, winner of the Good Friday 2½-mile Canadian Legion race and runner-up in the Royal Roads four-mile race last year, and Pete Kirchner, winner of the annual school five-mile race in February and the one-mile Legion race last year. Mount Douglas will be represented by Bill Nicholson in the same event.

Qualicum Beach Golf Champions

Dr. George Bigelow (left) and Mrs. Harold Husband (right) are pictured with Mrs. Fraser McIntosh of Vancouver after receiving their prizes for winning men's and women's championships, respectively, at 21st annual Qualicum Beach Hotel Golf Tournament. Prizes were presented by Mrs. McIntosh, wife of president of Qualicum Beach Hotel Company Limited.—(Photo by Vancouver Isle Photo Service).

Split Double Bill Hits A's Chance To Escape Cellar

HOW THEY STAND

	W	L	Pct	GB
Vancouver	31	9	.775	
Spokane	26	16	.619	6
Salem	19	20	.487	11½
Tri-City	16	21	.432	13½
Wenatchee	18	24	.429	14
Tacoma	17	23	.425	14
Yakima	16	22	.421	14
VICTORIA	16	24	.400	15

Victoria Athletics missed a chance at Tacoma yesterday to move up in the W.I.L. standings when the late-inning jitters caught up with them in the second game of a holiday doubleheader.

The A's battled to a 3-2, ten-inning win the regulation opener. They were leading 6-4 in the sixth inning of the seven-inning finale when it happened again. The Tigers shoved over three runs after two were out to grab the verdict 7-6.

Results left the A's still in the basement with all other teams also dividing two games. They play again at Tacoma tonight with John Marshall out to square the series and return home tomorrow morning to face Wenatchee Chiefs in the first game of an eight-game home stand.

SECOND-STRINGERS

Two second-string pitchers carried the A's to victory yesterday. Bill Osborn, making his first start of the season, went out in the tenth inning for a pinch-hitter with the score tied 2-2. He picked up the tab for the win when Gene Thompson singled in the winning run and John Tierney came on to protect the lead with a one-inning relief chore.

Lilio Marcucci batted in the first two Victoria runs to give the A's a 2-0 lead but the Tigers picked up singletons in the fifth and sixth innings to tie it up. Marv Diercks singled in the tenth, went to second on an error by usually-reliable Jose Bache, and scored on Thompson's hit. Tigers got the tying run aboard in their half but Tierney got the side out without damage, after pinch-hitter Hal Scherting led off with a double.

CONTROL TROUBLE

Manager Dick Barrett tried to make it a sweep but control trouble beat him. The A's grabbed a three-run lead in the first turn at bat, Marcucci driving in two runs and Bill White one. After the Tigers had evened it in their half of the first, Hal Johnson clouted his fifth home run with two mates aboard in the third to make it 6-3.

Tacoma picked up a run in the third, then won it in the sixth when Barrett issued walks No. 6 and 7 to Sol Israel and John Kovenz. Butch Moran made it 6-6 with a double and scored the winner on Marion Watson's single.

Young Toppers Nip Ramblers

HOW THEY STAND

	W	L	Pct
Individuals	6	0	1.000
Ramblers	4	4	.500
North Saanich	2	4	.333
Toppers	2	4	.333

Next game, tonight, North Saanich vs. Individuals.

The youthful Toppers pounded out 12 hits to edge the second-place Moose Ramblers, 11-10, at Lower Central last night. The victory—second for the junior players—left them only one game out of third place in the Women's Softball League.

Scoring twice in the first inning on singles by Mona Gee and Shiela English and a double by Chris Boyd, Toppers added two unearned runs in the second and ran their lead to 10-1 with a six-run outburst in the fifth.

Ramblers sent ten batters to the plate in the sixth, pounding out a triple by Helen Pettigrew, three doubles and two singles for seven runs. The losers added two runs on four hits in the top of the seventh to tie the count at 10-10.

With one out in the bottom of the inning, Bev Sweeney singled but was forced at second by Miss Gee, who later stole the halfway bag. Miss English then singled to drive in the winning run.

Terry Bombardier held the losers to one hit in the first five innings but gave way in the sixth to Marguerite Shaw, who received credit for the victory.

Ramblers	000 017 2	10
Toppers	220 060 1	11

C. Pettigrew and H. Pettigrew; Bombardier, Shaw (6) and English.

Capilano Streak Broken As Bevens Bests Snyder

Salem Senators snapped two Vancouver streaks yesterday. After the Caps had extended their league-record winning streak to 15 games by taking a 1-0 decision in the first game of a twin bill, the Senators bounced back to take the finale, 6-4. That defeat also ended Bob Snyder's personal winning streak after nine games as he went down to his first defeat.

Pete Hernandez bested Ray McNulty in the first game, winning it when Charlie Mead tripled and Reno Cheso doubled in the sixth inning. In the nightcap, Dick Faber's three-run homer featured the Salem win. Snyder gave up only six hits but the Senators bunched them in two scoring innings.

ALL TEAMS SPLIT

Wenatchee came back for a 6-2 triumph in the second game of a split doubleheader at Wenatchee after Tri-City had copped the afternoon game, 6-3. Spokane Indians held off a late Yakima rally to win the afternoon game, 7-5, but the Bears came out on top, 12-8, after extra innings in the nightcap.

Walt Raimondi pitched a five-hitter in his first start for Wenatchee. Jerry Zuvella and Tom O'Laughlin starred for Yakima. The former batted in seven runs for the Bears in the second game with two home runs, a triple and a single. O'Laughlin doubled in two runs in the tie-breaking tenth, scored ahead of Zuvella's second circuit smash.

Sailors Edge West Heat; Deskmen Win

Navy and Civil Service chalked up Senior "B" Men's Softball League victories last night.

The sailors edged West Heat, 7-6, at Bullen Park after scoring all their runs in the first four innings. A bases-loaded triple by Joe Connor, Navy hurler, in the fourth proved to be the winning blow.

Servants defeated Esquimalt Athletic Association, 7-5, at Upper Central. Esquimalt scored all its runs in the fifth as Servants blew a 4-0 lead when pitcher George Meadmore weakened. Ernie Dyer blanked the eventual winners the rest of the route and his mates pulled victory out with a two-run rally on four hits in the seventh.

		R	H
Civil Service	300 101 200	7	11
Esquimalt	000 050 000	5	5

Firestone WINS AGAIN at Indianapolis Speedway
CHOOSE THE TIRES THAT CHAMPIONS USE
Firestone for CHAMPIONS
GORGE AUTO SERVICE

28 Victories at Indianapolis Speedway proves Firestone TIRES SAFEST FOR YOUR CAR
When you put Firestone Tires on your car you know they have more reserve strength and safety than you will ever need . . . for they have been proved on the Speedway as the safest tires built.
For 28 years every driver in the race has bought Firestone Tires because no driver is willing to risk his life or chances of victory on anything less than the safest tires money can buy. Remember that fact next time you buy tires. Protect the lives of your family on Canada's No. 1 Tire—Firestone — first for safety, first for long mileage.
LEE WALLARD
wins at Indianapolis Speedway at record-breaking speed of 126.244 miles per hour!
Imagine the punishment his Firestone tires took at that terrific speed. 500 miles over the rough, brick track at the Indianapolis Speedway is equal to 30,000 miles of ordinary highway driving. 5 years of average service crowded into less than 4½ hours . . . eloquent proof that Firestone tires are safest for your car.
THE ONLY TIRE PROVED ON THE SPEEDWAY FOR YOUR PROTECTION ON THE HIGHWAY
Your Firestone Dealer has the full line of Firestone Auto Supplies . . . make him headquarters for all your motoring needs

Beautifully Styled Always Dependable REFRIGERATORS

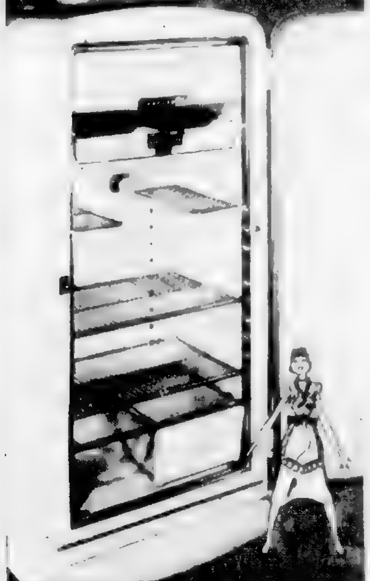

AND WE'VE MANY, MANY OTHER MODELS FOR YOUR CHOICE!

The New Crosley Shelvador

9.5 cubic feet capacity, with almost 18 square feet of shelf space. Has generous frozen food storage, [illegible] butter safe to keep butter just right for spreading and of course the famous storage door which gives you twice as much food within easy reach! Each

532^{95}

De Luxe Combination Philco

Philco Model 915 . . . capacity 9.1 cubic feet, shelf space 14.1 feet. Has full-length door, fully adjustable shelves and zero zone freezer to hold 28 lbs. frozen foods. Convenient self-closing door latch. "King-Size" Power system. Each

423^{95}

The Big De Luxe Hotpoint

It gives you one-third more refrigerated space in about the same floor space as a conventional 7 cubic-foot refrigerator! Advanced design means space saving in your kitchen—other advantages include butter conditioner, Stor-a-Door for extra storage room, high humidity drawers for vegetables, etc., and commodious meat keeper. Each.

499^{00}

70th Anniversary Model Leonard

10.9 cubic feet of storage volume in this fine refrigerator . . . features 42½-lb. frozen food and ice cube capacity, five different cold zones to suit every type of food you need to store. Glacier Sealed Unit with overload protection. Each

539^{50}

Exclusive With EATON'S in Canada

The "Coldspot"

De Luxe Model . . . 9 Cubic Feet

Illustrated at right . . . has convenient Servi-Shelves inside door, large freezer chest, full-width crisper, storage tray and butter compartments, egg basket, water bottle and many other features. Each

399^{00}

E7F Model . . . 7 Cubic Feet

For those who find that a smaller refrigerator suits their needs this model has most of the features of the De Luxe model with a food capacity of 7 cubic feet. One-piece welded steel cabinet, adjustable shelves, finished in acid-resistant porcelain interior. Each

359^{00}

LIBERAL TRADE-IN ALLOWANCE ON YOUR OLD REFRIGERATOR OR ICE BOX

For "Once-a-Week" Shopping

The "Frigidaire"

Standard Model AO-60

This fine refrigerator, illustrated at right, is a real space maker for small home or apartment . . . yet it has full 6 cubic feet of storage space! Generous freezer capacity, sturdy shelves, lift-out half-shelf for storing bulky foods, glass Cold-Storage tray and Quickube ice trays. Economical Meter-Miser unit. Each

345^{75}

Standard Model SO 82

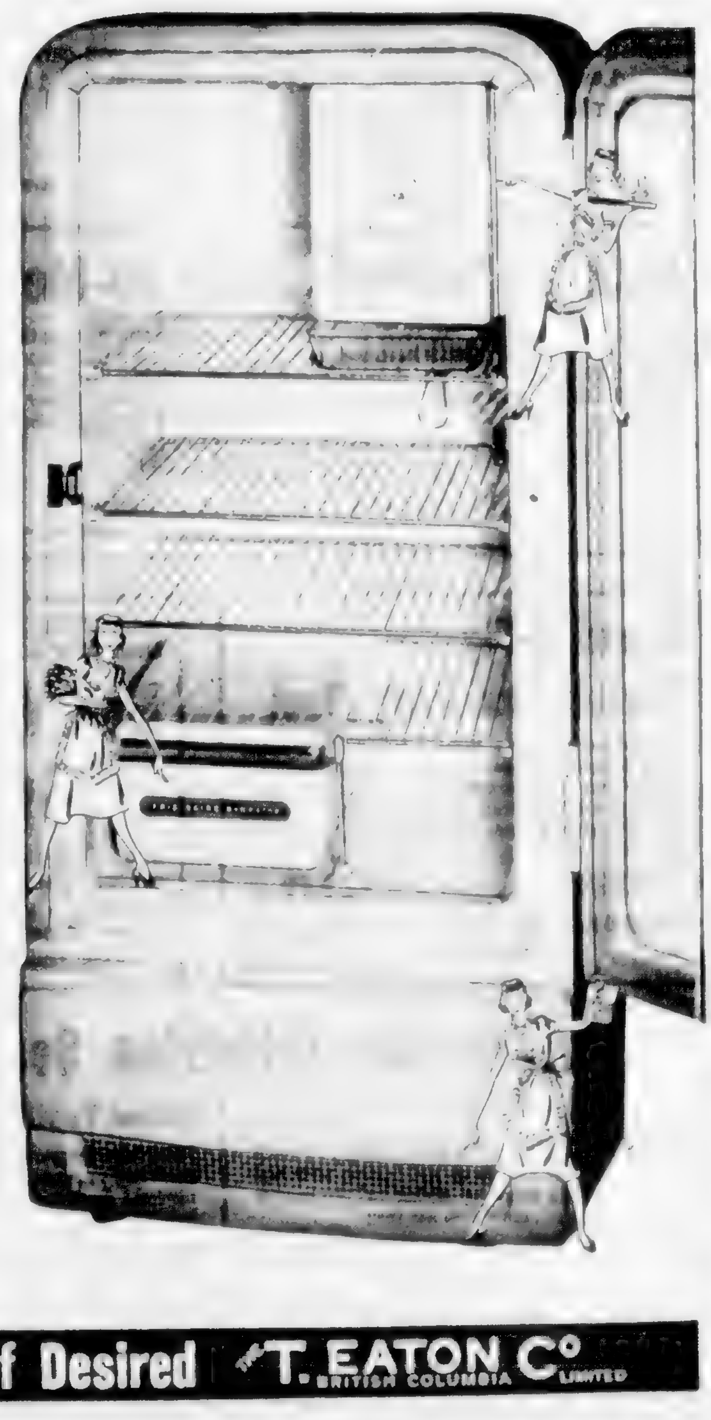

Roomy 8.2 cubic-foot interior and 15.6 square feet of usable shelf space makes this a fine refrigerator for the average family. Direct circulation of air provides safe cold from top to bottom. Meter-Miser unit combined with Super-Freezer gives economical operation. Each

414^{75}

De Luxe Model, DO 90

Brilliant new styling, full-width Super-Freezer chest and full-length door. Beautiful ice-blue interior trim, sliding adjustable aluminum shelves, extra-deep twin hydrators. Special Cold-Wall cooling provides safe cold from top to bottom of cabinet. Each

"THERE IS NO SUBSTITUTE FOR QUALITY"

Seafood Concoction Recipes Jealously Guarded by Chefs

Washington, D.C., and Baltimore are both noted for that delicious seafood concoction "Crab Imperial." Each chef has his own jealously guarded recipe. In general a basic Imperial Crab recipe is this one:

Get 2 hard-shelled crabs (for 2 people), boil them until pink and then remove the meat from the shell. (You can used cooked or canned crabmeat, in the amount needed, and get crab-shaped ramekins or crab shells from the store.)

Simmer the crabmeat with ½ an onion chopped in a little butter. Season with salt and ... sauce made from your favorite recipe, a dash or two of Worcestershire sauce, a teaspoon of English mustard and a few chopped chives. Bring all to boiling, then bind with the yolks of 2 eggs, beaten. Chop up some green and Spanish peppers fine and add to mixture. Blend well, then fill crab shells or ramekins. Spread a little French mustard on top and sprinkle with bread crumbs. Dot with butter and bake in the oven until browned. Garnish with a few more chopped chives or some capers and serve with lemon wedges.

Send **TWENTY-FIVE CENTS** in coins (stamps cannot be accepted) for this pattern to the Marian Martin Pattern Department, The Victoria Colonist, 60 Front Street West, Toronto, Ont. Print plainly **SIZE, NAME, ADDRESS, STYLE NUMBER.** The pattern will be mailed from Toronto and should reach you in two weeks or less.

New Version of Jelly Roll

An ice cream filling makes this cake roll into a four-star dessert. Don't run around in circles thinking of new desserts—this Ice Cream Cake Roll does it for you. Bake the fluffiest, lightest, thin chocolate cake, roll up tightly and leave to cool. Unroll and spread with softened creamy rich vanilla ice cream, roll up again and you have a fascinating version of the popular jelly roll. Top with folded vanilla sauce and shaved chocolate, and cut into generous portions.

Hospital Bed Occupancy Falls With Co-Insurance

By LAURIE JOSLIN

Co-insurance may have emptied some hospital beds.

Hospitals in Victoria and at other Vancouver Island points report a drop in bed occupancy since April 1 when co-insurance went into effect.

Officials of St. Joseph's hospital report the hospital now is operating with 30 vacant beds. There were no vacant beds in the hospital in March.

Officials of Royal Jubilee hospital say occupancy dropped from 97 to 90 per cent with the advent of co-insurance.

FALLING OFF

Health and Welfare Minister Douglas Turnbull states there appears to be a falling off in hospital occupancy in certain sections of the province.

Like hospital officials, the minister maintained that it is still too early to comment on the effect of co-insurance on hospital occupancy.

"It is hard to measure on a short-term basis," he stated.

Many factors are involved, such as seasonal decline in hospital occupancy and the fact that hundreds of new hospital beds have been put into use in the past year, said the minister.

BUDGETS

While one of the aims of the Hospital Insurance Service may have been realized through co-insurance—that of eliminating some unnecessary use of hospital beds by requiring patients to pay part of their bills—the new regulation could have a serious effect on hospital budgets.

The board of directors of King's Daughters' hospital at Duncan was informed recently that hospital revenue had dropped $4,000 a month since the coming of co-insurance. With 66 per cent of hospital costs in the category of fixed charges, it was explained to the board that the loss of revenue created "a serious situation."

DEFICIT

The board of management of the West Coast General Hospital at Port Alberni has been told that occupancy decreased from 285 patients in March to 235 patients in April, resulting in a substantial deficit for the month.

Hospital officials in Victoria state financial repercussions from lower occupancy have not been serious to date. Decision either to cut services in some way or to absorb a loss may have to be made if the lower occupancy condition becomes permanent.

But hospital authorities seem confident the condition is only of a temporary nature.

SUMMER

Hospital occupancy always drops off with the approach of summer when there are not the usual number of patients occupying beds with colds or 'flu, it was explained.

A drop in occupancy in mid-winter would have proved to hospital authorities immediately that co-insurance was a definite factor to be recognized in all future planning.

At this time, however, a gradual return to higher occupancy is foreseen as co-insurance receives public acceptance.

Man's Death Accidental, Jury Agrees

A coroner's jury, inquiring into the death of Charles McNalley, 58, no fixed address, brought in a verdict of accidental death yesterday morning.

McNalley, a timber cruiser in the north until he came to Victoria, died May 23 at Royal Jubilee Hospital after a fall in front of the Golden Cafe, 546 Fisgard Street, May 9.

Dr. A. J. Venables told the jury death was due to a fracture behind the left ear which caused brain damage on the other side of the man's head. A fall could have caused the injury, he said.

Lee Chee, cafe manager, said he saw McNalley lying down outside the cafe about 9.15 p.m., but didn't see the actual fall.

"Customers in my cafe said he was just drunk, but I phoned the police," said the witness.

UNCONSCIOUS

When police arrived, McNalley was unconscious, constable Lester Clarke said. In reply to a question by Coroner E. C. Hart, the constable said there was no obstruction on the sidewalk. The deceased smelled strongly of alcohol, he added.

"Did you know McNalley previously?" asked Dr. Hart.

"Yes, I've had several dealings with him in the course of my duty," replied constable Clarke.

"Alcoholic ones?" asked the coroner and received an affirmative reply.

Jury foreman was Kenneth Lea.

Victoria Aged Protest Ban On Free Milk

The Senior Citizens' Campaign Council has resolved to protest a Milk Board decision to forbid free distribution of milk to needy pensioners.

In the event of a free surplus food stall in the city market, milk could not be included, council members heard.

New delegates from No. Three Victoria Aged Pensioners were H. Stevens, Mrs. J. McDonald and M. Hewes. Others present were Mrs. G. Kelman, Mrs. J. Craigdaille, Mrs. A. Clough from the recently formed "Golden Age Club."

The council also approved a resolution to the Federal Government that $40 a month pensions be raised to at least $75.

SALES TO U.S.

British Columbia exported a total of 17,428 pounds of fresh fish to the United States Tuesday.

Largest single export was 14,870 pounds of king salmon.

Frozen exports totaled 2,852 pounds of clam meat, chum salmon, rockfish fillets, silver smelt and sole fillets.

Total of 3,585 pounds of smoked cod fillets, smoked haddock and kippered salmon were also included.

All Public School Children To Have First Aid Training

Elementary courses in first aid are to be given to all public school children in the province as part of the British Columbia civil defence program, officials of the provincial advisory council on civil defence said yesterday.

The first aid courses are being prepared by the Provincial Health Department and will be inaugurated in the autumn. They are designed to provide children of various ages with the knowledge needed in event of attack.

It was learned also that a provincial school for the training of civil defence personnel will be opened in Victoria in the autumn.

Census Co-operation Asked

Army of Enumerators Starts Count Tomorrow

Canada's ninth decennial census starts tomorrow morning when an army of 18,000 enumerators will start knocking on doors all over the country.

The enumerator's job is to get the facts which Canadians need for successful management of their private business or public affairs. The census is of practical benefit to everyone.

Information given the enumerators will be kept in strict confidence, and can be used only for census statistics. It cannot, by law, be made available to anyone for any purpose, even to other government departments.

Arthur J. Burns, census commissioner in this area, yesterday urged residents to be ready with quick and accurate information when the census taker calls.

SHORT VISIT

"If there is good co-operation, the enumerator should be in a house no longer than about 20 minutes," said Mr. Burns. "There is no use anyone trying to get into a political argument with the enumerator because he can't argue back."

There will be 73 enumerators at work in the Victoria riding which is broken into several subdivisions for the big counting task.

In urban areas the enumerators will take the census of population, housing and distribution (wholesale and retail trade and services). In rural areas they also will take the census of agriculture. There will be a census of commercial fishing in those areas where commercial fishermen live.

Work of the enumerators will be checked by the census commissioner and field supervisors to ensure that the census is as accurate and complete as possible.

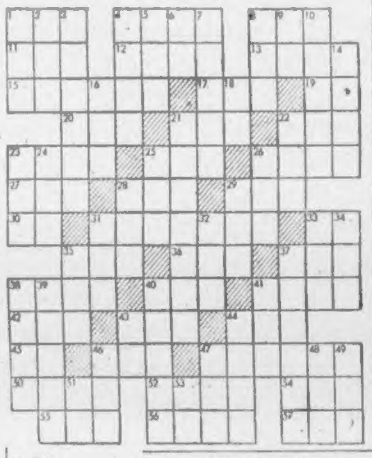

Progress Talk Given by Hinke

A figure-filled summary of progress by people of North America over the past 150 years was presented to the Kiwanis Club Tuesday by Frederick W. Hinke, United States consul here.

Through technical knowledge and tremendous advances in science, the people of this continent have developed a society truly unique in world history, the U.S. officer stated.

Population of the United States had risen from some 5,000,000 in 1800 to more than 150,000,000 today, he said. He told of great technical and scientific strides made by industry over the past 150 years, and predicted, "We haven't seen anything yet."

Victoria Garden Society Joins Anti-Smoke Drive

The Victoria Horticultural Society is supporting The Colonist's campaign against the city's smoke and cinder nuisance.

In a letter which acting mayor Dr. J. D. Hunter will receive this morning, the society is asking "full representation and participation in all civic inquiries and decisions appertaining to smoke control."

MEMBERS COMPLAIN

Wrote Denis H. Besley, society secretary: "Complaints have been made to me by society members regarding the adverse effects of industrial smoke on their gardening efforts. It is certain that many plants and trees will not grow well when exposed to industrial smoke, which is a growing problem in Victoria."

He said the society is "directly concerned" with conditions that tend to discourage the practice of horticulture.

In the organization's newsletter, written by Mr. Besley, great satisfaction was expressed that public attention is being drawn to the smoke and cinder nuisance. Plants, especially evergreens, will not thrive in smoky situations, he said.

CITY OF FACTORIES

"Unfortunately, influential business groups within our city are pressing for greater industrialization of this natural tourists' paradise. If these groups have their way, Victoria will eventually become a city of factories instead of a city of gardens," wrote Mr. Besley.

Meanwhile, June 7 has been set as tentative date for the joint meeting of City Council's legislative committee and mill operators.

Mill owners have approved of the meeting idea, and a good turnout is expected. Outcome of the conference may be formation of an anti-smoke advisory board.

Sweep News Douses Hopes

A Victoria nut and bolt worker at Yarrows Ltd. shipyards had his hopes doused quickly when the horse he drew in the Irish Sweepstake — Lieutenant Fire Alarm—was a non-starter.

But yesterday Norman Richards, 42, Westholme Hotel, rested easily while the rest of British Columbia's sweep ticket holders were waiting breathless for the outcome of the Derby at Epsom Downs, England.

He's certain anyway of £100—approximately $280.

The shipyard worker, a single man, said he would spend the money on clothes "and refreshments for a party."

No fewer than 16 opera houses flourished at the same time in Venice in the 17th century.

Ontario Expected Home June 6 After Long South Pacific Cruise

MARINE AND TRAVEL NEWS

H.M.C.S. Ontario is expected to reach Victoria at 11 a.m. June 6 following a 100-day cruise in South Pacific waters.

The cruiser sailed from Pearl Harbor yesterday on the last leg of her journey home to Esquimalt.

The destroyer Cayuga, which returned here 7½ weeks ago, left Esquimalt yesterday to relieve to the Korean war zone, where she will relieve H.M.C.S. Nootka.

The Nootka will return to Halifax, after stopping at Esquimalt.

The Cayuga, which has had a 50 per cent personnel turnover since returning from Korean waters, will have a new commanding officer and new executive officer. Cmdr. James Plomer has relieved Capt. Jeffry Brock as commander of the destroyer and Lieut-Cmdr. A. B. Cosh is new executive officer.

* * *

SHIPS DUE

King Bros., shipping agents, reported yesterday that the British-registered Scottish Monarch was due in last night to load 380,000 feet of lumber for the United Kingdom.

Expected in today are the Ss. Hawaiian Logger, to load 327,000 feet of lumber for Hawaii, and Ss. Panagiotis, expected to load 564,000 feet of lumber for South Africa.

The Ss. Northleigh left for Port Alberni yesterday after loading 400,000 feet of lumber for the United Kingdom.

ESCORT LAUNCHING

Mrs. Wallace B. Creery, wife of Rear Admiral W. B. Creery, Flag Officer Pacific Coast, will officiate at the launching Friday of one of the navy's new anti-submarine escort vessels at Burrard Dry Dock.

The new, all-Canadian-designed vessel was built for the job of hunting down and destroying submarines.

FERRY CHANGES

The Puget Sound Navigation Company (Black Ball Line) will move from its present location at Colman Ferry Terminal to new offices on Pier 53 at Seattle effective June 1.

At the foot of Madison Street on Seattle's waterfront, the new location will house the company's business and ticket offices and serve as a base of operations for the Mv. Chinook, which continues its regular overnight sailings to Victoria.

NEW RAMP

Passengers will enter the new Black Ball Line location by a newly-constructed ramp from Alaskan Way. A large, modern waiting room and streamlined customs inspection facilities have been completed.

The Chinook will sail at 11.45 every night from Pier 53 for Victoria, arriving at 7.15 a.m. It leaves Victoria at 5.15 p.m. and arrives back at Pier 53 in Seattle at 9.30 p.m.

All arrival and departure times of the Chinook are Pacific Standard Time.

TOP EXPORTER

Canada was the top exporter of cod, haddock, hake, pollock, cusk and ocean perch to the United States in the first four months of 1951.

Of an overall total of 31,651,838 pounds exported by eight countries, Canada accounted for 21,055,673 pounds during this period. This country also increased its export of these types of fish by 4,597,054 pounds over the first four-month total for 1950.

Canada exported 7,051,997 pounds of these types of fish in April, an increase of 2,455,084 pounds over April of last year.

DESTROYERS VISIT U.K.

Three Canadian destroyers arrived in Southampton, England, yesterday from Halifax with 135 naval cadets on their first major training cruise.

The destroyers La Hulloise, Swansea and Crescent will remain in Portsmouth harbor until Tuesday, while the cadets are taken on a conducted tour of the port's shore establishments.

Between instructional classes, cadets, drawn mainly from the universities of McGill and Dalhousie, will be given time off to visit London and Winchester as well as some of the English countryside.

Tuesday, the ships will leave for Rosyth where the Home Fleet will be engaged in North Sea exercises. The Canadian destroyers, however, will not take part.

NOOTKA CAPTURES JUNKS

In a night operation, the Canadian destroyer Nootka captured seven small North Korean vessels which were attempting to run the United Nations Korean blockade.

The action took place recently off the west coast of Korea on a night when heavy fog covered the enemy fleet—made up of junks and sampans. However, the destroyer's radar detected them and a specially-equipped boat was put over the side, with Lieut. Anthony Slater of Victoria in charge and P.O. Edward Randall of Halifax as coxswain.

BOAT GUIDED

The Nootka guided its boat's movement with her radar and radio, and armed parties boarded the anchored enemy craft, cut their cables and brought them back in groups of two and three to the Canadian destroyer.

Crews of the junks, who were found drugged with opium, had a rude awakening when they reached the destroyer and were hauled aboard. Before dawn, the Canadians had taken seven vessels of nine sighted over the ship's radar. They did not return for the other two because of the danger of a dawn enemy air attack in inshore waters.

A total of 28 prisoners were taken and turned over later at a United Nations port.

Will Hold Dances

Central Saanich Firemen Start Ambulance Fund

A fund for the purchase of a new ambulance for Central Saanich got off to a good start yesterday with a $100 donation from the Volunteer Firemen's Association which itself has initiated the drive.

The firemen plan to raise other funds by holding dances and picnics throughout the next few months.

In addition, John Looy, president of the group, said donations from private persons and other organizations will help swell the fund. Several individual donations have already come in, he said.

TO DOUBLE

He thought the present amount, about $110, would be doubled "in very short order."

The ambulance will be operated and owned by the association and will provide ambulance service free of charge to anyone needing it.

Although the project is still "in the planning stage," Mr. Looy said, the aim was to have the ambulance, fully equipped, on the road with trained operators by autumn.

Members of the volunteer department will take special first-aid courses in the near future, he said.

The first pipeline to carry natural gas in the United States was built in 1872.

Here's one of the recipes that make salads a hit at our house!
Says Mrs. P. MacKenzie, Wilson Heights, Ont.

"I've found the magic ingredient that makes my family love every salad," says Mrs. MacKenzie, "I use Best Foods *Real* Mayonnaise."

Best Foods *Real* Mayonnaise is the very finest quality you can buy. Most folks use Best Foods *Real* Mayonnaise as it comes from the jar . . . its subtle flavor brings out the true salad goodness. Many women vary *Real* Mayonnaise . . . make it spicy, tart or sweet . . . to suit their salads. Here's Mrs. MacKenzie's favorite variation for fruit salads:

HONEY WHIP

Add ¼ teaspoon salt to 1 egg white, beat until stiff. Add 2 tablespoons of honey slowly until mixture will stand in peaks. Fold in 1 cup Best Foods *Real* Mayonnaise. Sprinkle 1 teaspoon grated lemon rind on top for garnish. Serve with your favorite fruit salad. Try *Real* Mayonnaise in sandwich fillings, deviled eggs, as a spread for bread.

Because it is a blend of pure salad oil, *whole* eggs, added egg yolks and other fine ingredients . . . because there is *no starchy filler* . . . Best Foods *Real* Mayonnaise is worth more than ordinary salad dressings. You save with rich, *Real* Mayonnaise because it goes farther, so many ways! Write for free recipe book "Soup to Nuts" to: The Best Foods (Canadian), Ltd., 75 Hughson St. N., Hamilton, Ont.

BEST FOODS
Real Mayonnaise
GOES SO FAR — SO MANY WAYS

Best Foods French Style Salad Dressing: A robust tangy dressing especially favored by *men!*

Best Foods Sandwich Spread: Smooth and pickley . . . husbands and young-uns *love* it!

Hellmann's Home Style Salad Dressing: Spicy 'n' nice . . . like mother used to make, maybe better.

With Brock's Bird Seed and the Free Bird Treat in every package, your canary will have something extra to sing about. The clean, fresh seed, plus the Yeast in the Treat, assure a varied and correct diet that will keep him happy and healthy.

He will respond with singing that's golden gladness in the home . . . gaiety and sunshine in song, no matter what the weather.
